Product Description

IFRA Perfume Fragrance Oil 9a.m. Dive Afnan Fragrance Oil For Perfume Making/Production With Free Sample

Product Code: LDZ-PL12096

Inspired by the acclaimed modern aquatic-aromatic profile, the 9 A.M. Dive concentrated fragrance oil by Afnan delivers a deeply refreshing and high-energy scent designed for versatile production. Its dynamic journey opens with an ultra-crisp blend of zesty lemon, cooling mint, fruity black currant, and a flicker of pink pepper. As it evolves, the heart introduces a clean bite of apple balanced by structured cedarwood and an intriguing touch of smoky incense. The fragrance ultimately settles into a warm, grounding dry down combining spicy ginger, creamy sandalwood, patchouli, and delicate jasmine. Perfect for scaling into vibrant summer colognes, alcohol-free roll-on oils, refreshing body sprays, and dynamic men's grooming lines like shower gels or aftershaves, this concentrated formulation offers exceptional longevity and projection, making it an invaluable asset for creating upscale, mass-appealing contemporary fragrances that transition effortlessly from day to night.

Fragrance Profile:

Fragrance Notes	Description
Top Notes (Opening)	An ultra-crisp opening of zesty Lemon, cooling Mint, fruity Black Currant, and a flicker of Pink Pepper.
Middle Notes (Heart)	A crisp transition featuring clean Apple, structural Cedarwood, and an intriguing touch of smoky Incense.

Base Notes (Foundation)	A warm, grounding dry down combining spicy Ginger, creamy Sandalwood, Patchouli, and delicate Jasmine.

Technical Specifications:

Parameter	Specification
Fragrance Notes	9a.m. Dive Afnan Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	0.930–1.053 g/cm³ @ 25°C
Refractive Index	1.505–1.535
Flash Point	>90°C (200°F)
Dosage	EDP:15–30% Perfume Oil:20–40% EDT:8–18% Grooming Products:0.3–1.0% Body Mist:3–8%
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)

Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions:

The primary function of the 9 A.M. Dive fragrance oil is to serve as a high-performance, ready-to-use aromatic core that replicates a complex, mass-appealing aquatic profile without requiring multi-ingredient blending from scratch. Engineered with a robust structural framework, it functions as an exceptional fixative agent; its dense base of sandalwood, patchouli, and ginger anchors the volatile citrus and mint top notes, preventing them from evaporating too quickly and ensuring long-lasting performance on the skin. Additionally, it functions as a versatile masking agent, seamlessly neutralizing raw chemical odors in unscented cosmetic bases while imparting a clean, vibrant character. The oil is chemically optimized to blend smoothly into various production mediums—including perfumer's alcohol, solubilizers, carrier oils, and heated wax bases—without separating, clouding, or clogging dispensing equipment. Finally, it functions as a cost-effective, high-yield asset for independent brands looking to scale a trendy, ultra-fresh fragrance line that captures high market demand with exceptional consumer appeal.

This concentrated fragrance oil is exceptionally versatile, finding primary application in fine fragrance production where it can be diluted into vibrant summer colognes, refreshing body splashes, and alcohol-free roll-on perfume oils. In the men's grooming sector, it is widely utilized to formulate invigorating daily-use products such as cooling aftershave balms, cleansing shower gels, facial washes, and energizing shampoos, allowing the crisp lemon, mint, and apple notes to leave a lasting impression. Furthermore, its skin-safe performance ratios make it ideal for hand lotions, body moisturizers, and high-end styling pomades that benefit from a clean, sporty projection activated by body heat. Beyond personal care, it is frequently applied in home fragrance and artisan crafting to manufacture lifestyle goods like luxury soy wax candles, athletic gym bag sprays, reed diffusers, and artisanal soaps, creating an uplifting, modern aquatic ambiance that appeals to a wide consumer base.

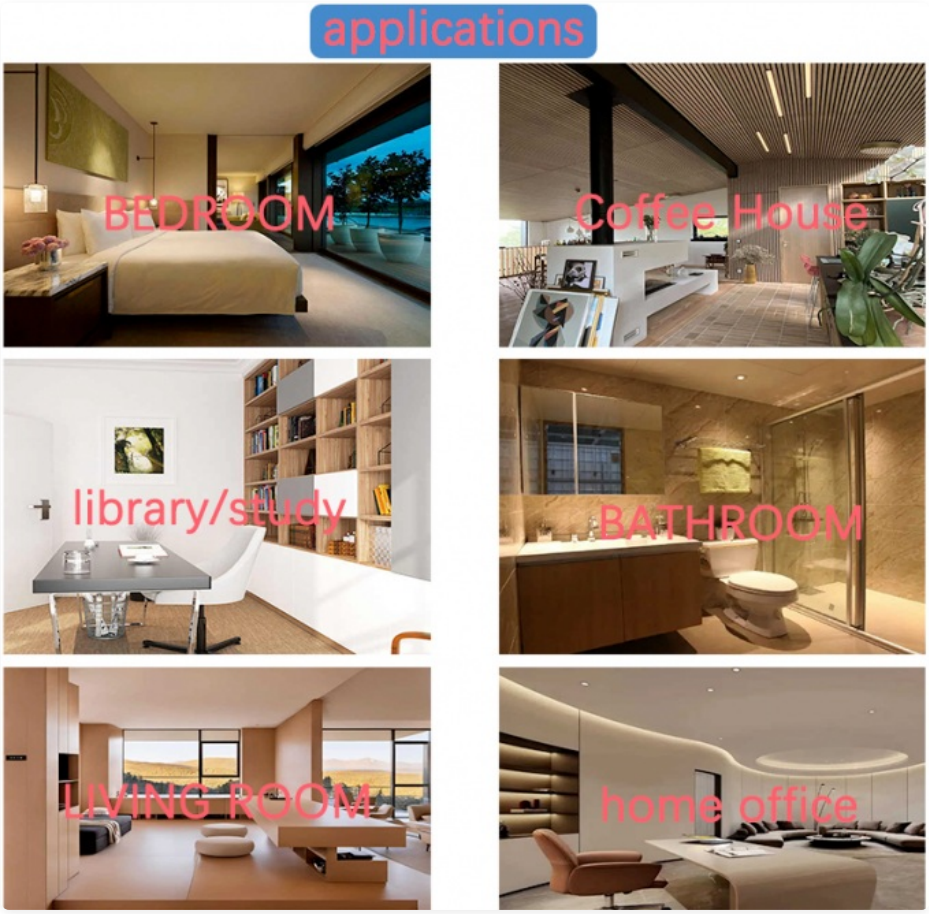

Industrial Applications

Primary applications include:

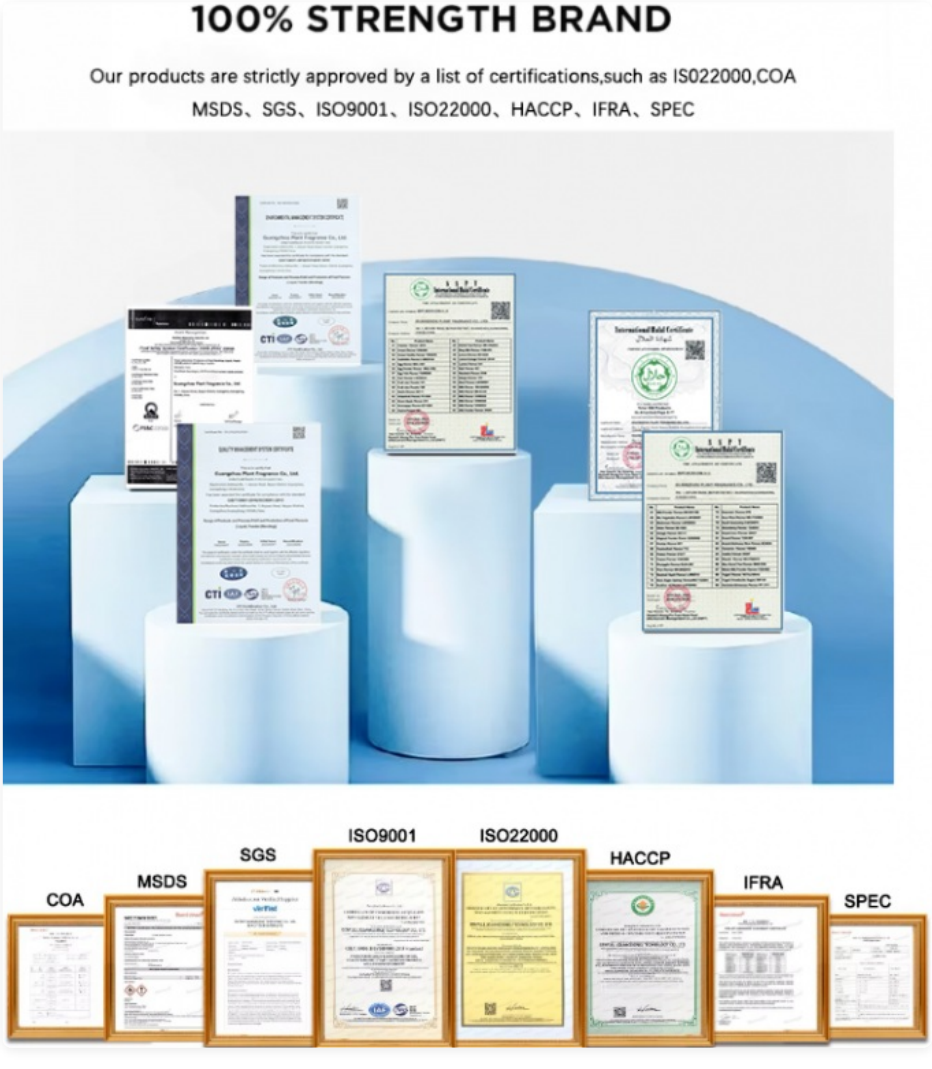

- **Attars and Concentrated Perfume Oils (CPO):** Ideal for alcohol-free, highly potent luxury oils
- **Fine Fragrances:** Used in "Intense" or "Nuit" perfume versions requiring heavy sillage
- **Premium Home Fragrancing:** Top-tier choice for Bakhoor and luxury incense production
- **Hospitality Sector:** Utilized in high-output nebulizers for hotel lobbies and boutiques
- **Personal Care:** Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.
