Product Description

IFRA Hotel & Home Diffuser Aroma Black Lemon Lime Fragrance Scent Flavoring Essence Oil For Reed Stick &Cold Scented Candle& Diffuser Fragrance Making/Production

Product Code: LDZ-PL31607

Premium fragrance essence for diffusers, reed sticks, scented candles, and home spray productions

Product Overview:

It delivers a vibrant citrus aroma that combines the sparkling freshness of ripe lemons with the zesty, slightly tangy character of juicy limes. Its lively scent profile creates an immediate impression of cleanliness, brightness, and natural energy, making it an excellent choice for fragrance products designed to refresh indoor environments. The opening notes feature crisp lemon peel, freshly squeezed lime, and subtle citrus zest, offering a sharp yet refreshing introduction. As the fragrance develops, delicate green accords blend with sweet citrus pulp and light herbal nuances, bringing a balanced character that prevents the composition from becoming overly acidic or sharp. The base notes introduce soft musk, gentle woody undertones, and a faint sweet impression, providing a smooth finish that rounds out the bright citrus opening.

One of its distinctive qualities is the balance between refreshing acidity and pleasant sweetness, creating an aroma that feels clean, cheerful, and approachable. Suitable for reed diffusers, cold-process scented candles, and various home fragrance applications, this fragrance oil helps establish an uplifting atmosphere in living spaces, bedrooms, bathrooms, hotels, and commercial interiors. Its versatile citrus character also blends well with floral, herbal, aquatic, and woody fragrance families, offering manufacturers flexibility when developing customized scent collections.

Lemon Mint Fragrance Essence

Fragrance Profile & Characteristics:

Fragrance Notes	Description
Top Notes	The fragrance opens with an invigorating burst of freshly peeled lemon, juicy lime, and sparkling citrus zest. Bright grapefruit nuances add a slightly tangy dimension, creating a crisp, energetic first impression that immediately brings to mind freshly squeezed citrus fruits.
Middle Notes	As the scent unfolds, sweet lemon pulp and refreshing green accords become more noticeable. Subtle lemongrass, delicate herbal touches, and soft floral nuances enrich the citrus heart, adding depth and complexity while maintaining its clean, refreshing character. This stage balances the sharpness of citrus with a naturally smooth sweetness.
Base Notes	The dry-down reveals gentle white musk, light cedarwood, and delicate sweet undertones. These softer elements provide a rounded foundation, helping to soften the initial citrus sharpness and create a pleasant, lingering impression.

Technical Specifications:

Parameter	Specification
Product Name	Lime Fragrance Scent Flavoring Essence Oil
Appearance	Colorless to light yellow transparent liquid
Relative Density	0.940–1.050g/cm³ @ 25°C
Refractive Index	1.480–1.515@ 20°C
Flash Point	>93°C
Ingredients	Natural & Synthetic Aromatic Compounds
Recommended Dosage	Cold Process Candles: 6–10%; Room Spray: 2–6%; Scented Candle: 5–10% Hot Process Candles: 5–8%; Reed Diffuser: 15–25%; Home/Hotel diffuser : 5–10%;
Volatilization Rate	Maintains continuous fragrance for 20-30 days, covering 15-25 square meters
Solubility	Easily soluble in ethanol and propylene glycol
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in cool, dark place in sealed container
Standard Compliance	IFRA compliant with passed skin irritation testing

Functions & Applications:

It is designed to bring a refreshing citrus character and a clean, uplifting atmosphere to fragranced products. Its combination of lemon brightness and lime zest creates an energetic scent impression that helps make indoor environments feel fresher, lighter, and more inviting. One of its key functions is to provide a recognizable fresh-citrus identity that appeals to consumers who prefer clean, uncomplicated, and invigorating aromas. The balanced composition of fruity, green, and soft musky accords also

helps prevent the fragrance from smelling excessively sharp or one-dimensional. For fragrance manufacturers, this oil offers excellent creative flexibility, allowing it to serve as a standalone scent or as a blending component in customized fragrance formulations. It can complement floral, herbal, aquatic, and woody notes to create distinctive seasonal or signature collections. In addition, its versatile citrus profile makes it suitable for developing products positioned around freshness, everyday comfort, and modern home ambience. It provides a bright aromatic direction for brands seeking accessible yet characterful fragrance solutions.

Primary Applications:

It is suitable for a variety of home fragrance applications, particularly reed diffusers, scented candles, and other aromatic products designed for residential and commercial environments. In reed diffuser production, its lively citrus character helps create a welcoming atmosphere in living rooms, bathrooms, bedrooms, offices, reception areas, and hotel interiors. For cold-process scented candles, it introduces a crisp, refreshing scent direction that works especially well in spring and summer collections. Manufacturers can also incorporate this fragrance into home sprays, aroma sachets, and other compatible air-freshening products to expand their citrus-inspired product ranges. Its lemon and lime combination pairs naturally with green tea, basil, lavender, eucalyptus, white musk, and light woody accords, providing opportunities for developing exclusive blended fragrances. For B2B manufacturers, this versatility supports different market positioning, from everyday household freshness to premium hospitality-inspired collections. Before production, the fragrance should be evaluated for compatibility, stability, and recommended usage levels in each application, following the relevant IFRA standards and product-specific safety requirements.

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications,such as IS022000,COA MSDS、SGS、ISO9001、ISO22000、HACCP、IFRA、SPEC

Support and Services

Our R&D team includes PhDs and senior engineers, with established laboratories in partnership with universities. We integrate global technology to maintain product advantage through continuous innovation.

Comprehensive Support Services

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation
