Product Description

Concentrated Body Using Perfume Oil Ralph Lauren No.2 Polo Lady Fragrance Essence Oil For Perfume Making / Production With Free Sample

Product Code: LDZ-PL10482

The scent profile opens with a vibrant, juicy, and tangy burst of fresh cranberry, offering an energizing and slightly tart sparkle that instantly catches attention. As it transitions to the heart, subtle, romantic nuances of soft floral accords emerge, lending a delicately feminine elegance that balances the initial fruitiness. The composition is deeply grounded by a rich base of warm tonka bean and creamy tonka mousse, often accented by sweet whispers of vanilla and subtle musk. This dry-down wraps the skin in a smooth, cozy, and comforting amber-like warmth. As a concentrated production oil, it yields a lush gourmand quality—striking a harmonious balance between bright, mouth-watering fruit and deep, sensual sweetness. It is modern, youthful, and deeply alluring, making it ideal for creative formulations targeting romance, everyday confidence, and casual elegance.

Fragrance Profile:

Fragrance Notes	Description
Top Notes (Opening)	The fragrance opens with a vibrant, juicy burst of fresh cranberry. This initial note delivers a tart, mouth-watering, and slightly sour sparkle that immediately captures attention with its energetic and fruity character.
Middle Notes (Heart)	As the tartness begins to settle, the heart introduces lush tonka mousse and rich tonka bean (frequently complemented by subtle hints of soft floral nuances). This phase introduces a creamy, velvety sweetness that smooths out the sharp edge of the berry.
Base Notes (Foundation)	The scent finishes with a warm, comforting dry-down of sweet vanilla and sensual musk. These base elements wrap closely around the skin, leaving a lingering, cozy, and alluring oriental-gourmand trail.

Technical Specifications:

Parameter	Specification
Fragrance Notes	Ralph Lauren No.2 Polo Lady Fragrance Essence Oil
Appearance	Transparent to amber liquid

Relative Density	0.950–1.050g/cm³ @ 25°C
Refractive Index	1.485–1.515
Flash Point	>80°C
Dosage	Home Fragrance: 6%–10% Body Mist: 1%–5%; Fine Perfume: 15–30%; Soap/wash-off: 1.5-4% Shower Gel & Shampoo: 0.2–1.0%; Body Oils/Lotions: 0.3–1%; Eau de Parfum (EDP): 15–30%;
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions:

The primary function of this concentrated fragrance oil is to serve as a high-grade aromatic base material and active scent compound for various perfumery and cosmetic formulations. Because it is provided in a concentrated essence oil format, its main technical function is to deliver the signature olfactory profile—characterized by vibrant cranberry, creamy tonka mousse, and warm vanilla—with high potency and longevity. It functions as an adaptable aromatic building block that can be diluted, blended, or fixed into different carrier mediums. In production, it acts as the core scent provider, offering fixative properties through its rich amber and musk base notes that anchor lighter volatile compounds. Furthermore, it functions to impart a distinct, modern gourmand-fruity identity to finished goods, ensuring that the final product maintains a consistent, appealing aroma profile from the initial application through the final dry-down phase on the skin or surfaces.

This versatile fragrance oil is widely utilized across multiple production and creative applications within the beauty and personal care industries. In fine fragrance manufacturing, it is heavily used to formulate alcohol-based perfumes, body sprays, and long-lasting oil-based roll-on fragrances. Beyond traditional perfumes, its cozy and sweet profile makes it an exceptional choice for artisan bath and body products, including cold-process soaps, body lotions, nourishing body washes, and rich shea butter creams. It is also frequently incorporated into home fragrance and ambient scenting products, such as scented soy candles, reed diffuser bases, and room freshening sprays, where the warm tonka and vanilla dry-down can effectively project. Additionally, independent perfumers and cosmetic producers utilize this essence oil for custom formulation experiments, layering creations, and designing signature private-label retail collections targeted at casual, everyday wear.

Industrial Applications

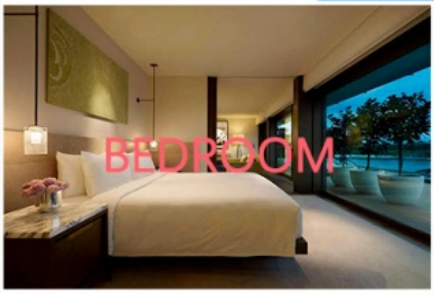

Primary applications include:

- **Attars and Concentrated Perfume Oils (CPO):** Ideal for alcohol-free, highly potent luxury oils
- **Fine Fragrances:** Used in "Intense" or "Nuit" perfume versions requiring heavy sillage
- **Premium Home Fragrancing:** Top-tier choice for Bakhoor and luxury incense production
- **Hospitality Sector:** Utilized in high-output nebulizers for hotel lobbies and boutiques
- **Personal Care:** Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.
