Product Description

IFRA Concentrated Perfume Antonio Banderas Blue Seduction Fragrance Oil For Perfume Making/Production With Free Sample

Product Code: LDZ-PL10818

Antonio Banderas Blue Seduction fragrance oil is a vibrant, aquatic-oriental composition crafted for modern formulations that balances crisp freshness with warm sensuality. Its scent profile opens with an invigorating splash of bergamot, crisp mint, juicy black currant, and sparkling melon for an immediate cooling zest. This transitions into an aromatic, spicy heart of cardamom, green apple, sea notes, and nutmeg that injects a contemporary, masculine edge. Finally, the fragrance anchors into a magnetic, rich base of amber, musk, a creamy cappuccino accord, oakmoss, and woody notes, delivering a subtle sweetness and lasting warmth ideal for versatile, everyday perfume production.

Fragrance Profile:

Fragrance Notes	Description
Top Notes (Opening)	The top notes open with an invigorating splash of bergamot, crisp mint, juicy black currant, and sparkling melon, delivering an immediate, cooling zest.
Middle Notes (Heart)	As the opening settles, the heart reveals an aromatic and spicy complexity featuring cardamom, green apple, sea notes, and nutmeg, which injects a masculine, contemporary edge into the blend.
Base Notes (Foundation)	The base notes ground the fragrance oil with a rich, magnetic foundation of amber, musk, cappuccino accord, oakmoss, and woody notes. This creates a subtle sweetness and creamy warmth that lingers on the skin.

Technical Specifications:

Parameter	Specification
Fragrance Notes	Antonio Banderas Blue Seduction Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	0.952–1.103 g/cm³ @ 25°C
Refractive Index	1.505–1.535
Flash Point	>90°C (200°F)
Dosage	EDP:15–30% Grooming Products:0.3–1.0% Perfume Oil:20–40% EDT:8–18%Body Mist:3–8%
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions:

The Antonio Banderas Blue Seduction fragrance oil functions primarily as an aromatic compounding agent and scent-delivery vehicle designed to replicate the complex, aquatic-oriental character of the original designer cologne. Chemically engineered for manufacturing versatility, its primary function is to impart a long-lasting, multi-layered olfactory profile—transitioning from zesty citrus and aquatic top notes to a warm, woody, and cappuccino-infused base—onto various media without requiring alcohol dilution. As an uncut, concentrated oil, it functions to anchor volatile top notes, ensuring slow, even evaporation and sustained scent longevity on skin or product bases. Furthermore, it acts as a masking and deodorizing agent in cosmetic bases, neutralizing raw chemical odors from unscented surfactants or waxes while introducing an aura of modern masculine freshness, dynamic cooling vitality, and sensual appeal suitable for diverse

consumer goods.

This fragrance oil features broad commercial and artisan applications across perfume production and personal care manufacturing. In fine fragrance production, it serves as the core aromatic component for crafting alcohol-based eau de toilettes, alcohol-free roll-on attars, and solid perfumes. Beyond traditional perfumery, its stable formulation makes it highly compatible with body and facial care lines, including hydrating lotions, nourishing creams, body washes, and soothing aftershaves. It is widely utilized in hair care items such as shampoos and conditioning treatments, as well as cleansing products like artisan cold-process soaps and fizzy bath bombs. Additionally, artisan producers incorporate this aquatic-spicy oil into home and lifestyle goods, including soy wax candles, room fresheners, linen sprays, and custom automotive diffusers, capitalizing on its mass appeal and energizing aromatic signature.

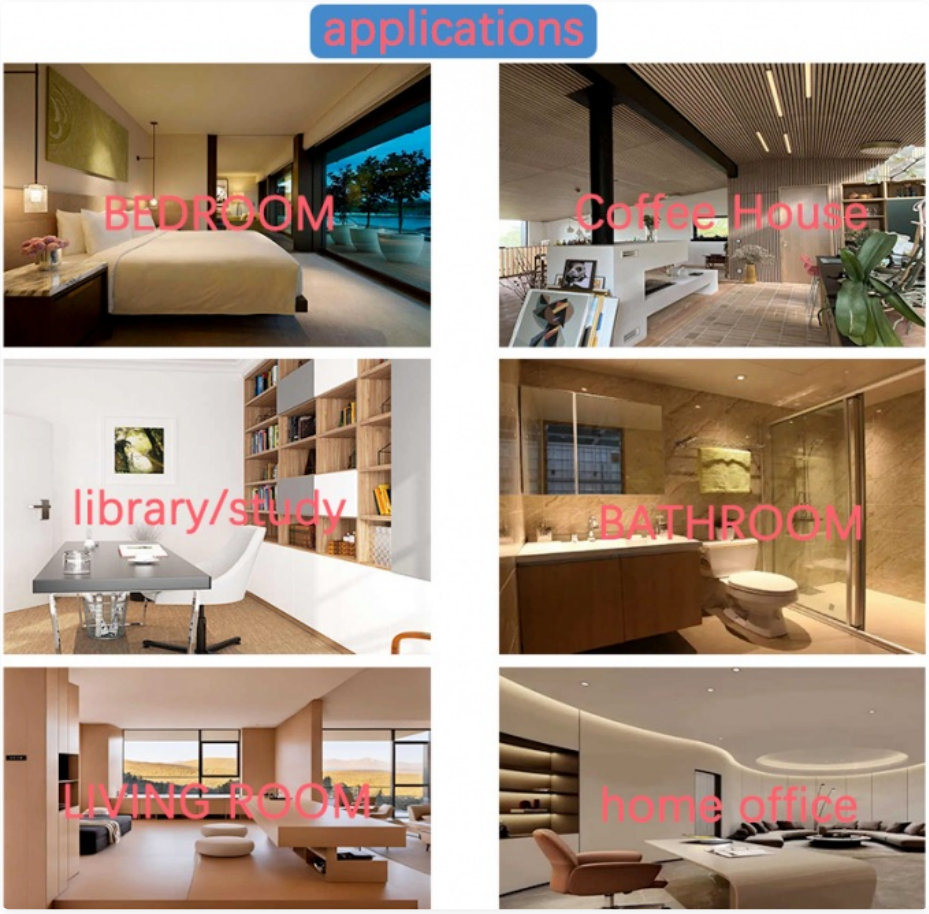

Industrial Applications

Primary applications include:

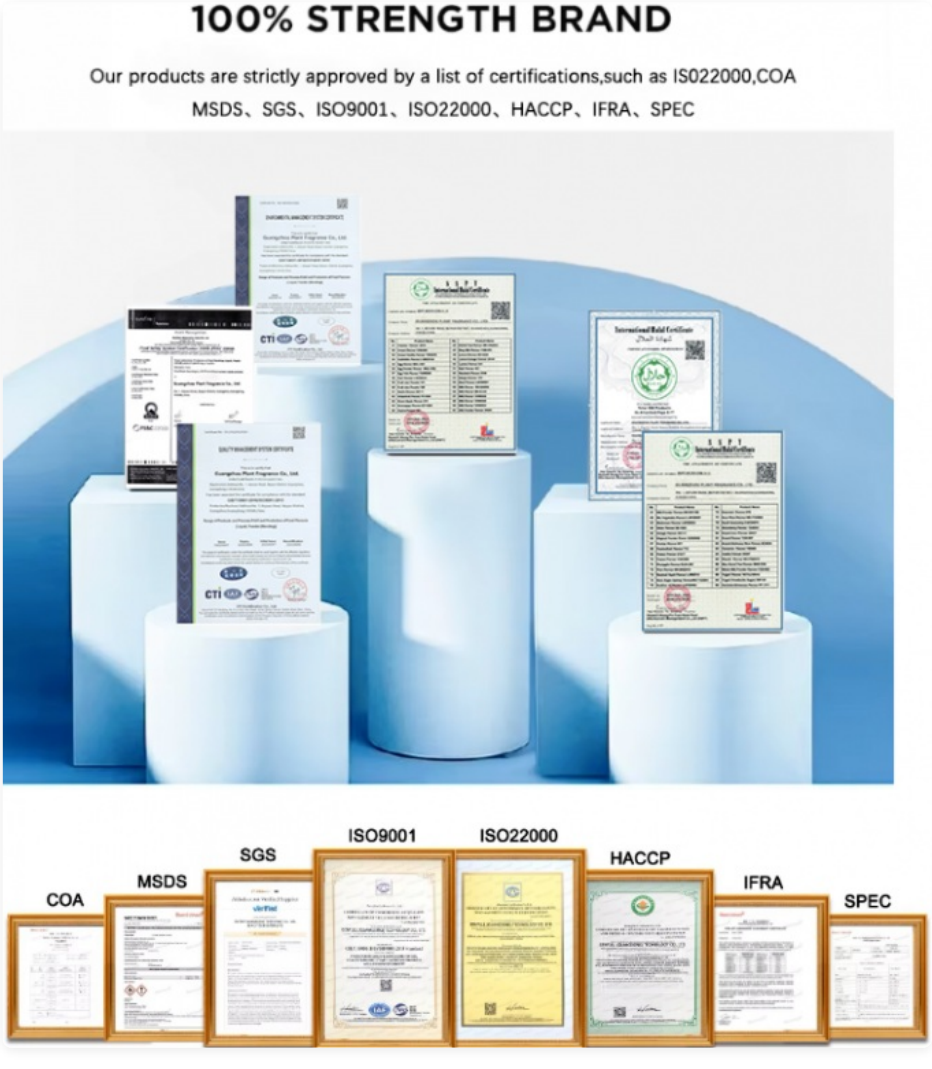

- **Attars and Concentrated Perfume Oils (CPO):** Ideal for alcohol-free, highly potent luxury oils
- **Fine Fragrances:** Used in "Intense" or "Nuit" perfume versions requiring heavy sillage
- **Premium Home Fragrancing:** Top-tier choice for Bakhoor and luxury incense production
- **Hospitality Sector:** Utilized in high-output nebulizers for hotel lobbies and boutiques
- **Personal Care:** Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.
