Product Description

Fragrance Oil For Perfume The most wanted Fragrance Oil For Perfume Making/Production With Free Sample IFRA

Product Code: LDZ-PL12140

Concentrated Bois Impérial fragrance oil is a striking, ultra-modern woody-spicy creation that masterfully blends vibrant freshness with deep, magnetic warmth. Its signature profile opens with an invigorating, zesty collision of freshly crushed Thai basil leaves and sparkling Nepalese Timut pepper absolute, infused with bright grapefruit facets that immediately capture attention. As the scent evolves into its heart, a clean, sophisticated touch of floral nuance emerges, seamlessly transitioning the composition toward its majestic core. The foundation is anchored by an extraordinary, upcycled Akigalawood note, which delivers a distinct spicy-woody character married to rich Indonesian patchouli oil. This is further intensified by clean Georgywood cedar variations and powerful Ambrofix, culminating in an exceptionally long-lasting, elegant, and textural trail that radiates contemporary luxury and refined sensuality.

Fragrance Profile:

Fragrance Notes	Description
Top Notes (Opening)	The composition opens with an intensely fresh and sparkling collision of crushed Thai basil leaves, zesty grapefruit, and a vibrant, spicy kick of Nepalese Timut pepper absolute.
Middle Notes (Heart)	As the initial sharpness evolves, the heart introduces an earthy, textural dimension featuring clean Haitian vetiver, sophisticated floral-peppery petalia, and modern woody cedar variations like Georgywood.
Base Notes (Foundation)	The dry-down anchors the fragrance in a rich, magnetic foundation. It centers around majestic, upcycled Akigalawood, deep Indonesian patchouli oil, and powerful Ambrofix, delivering a warm, long-lasting, and highly diffusive trail.

Technical Specifications:

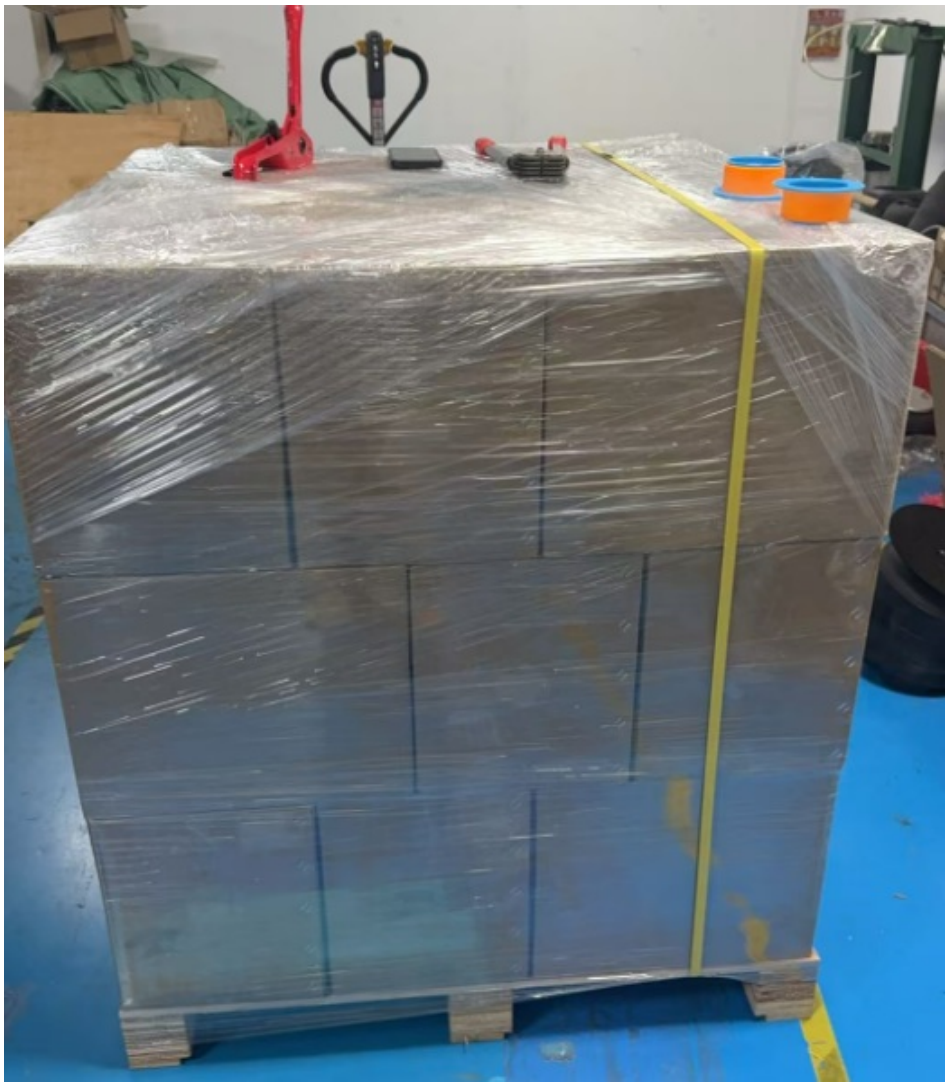

Parameter	Specification
Fragrance Notes	Bois Imperial Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	0.885–1.048 g/cm³ @ 25°C
Refractive Index	1.450–1.520
Flash Point	>93.3°C (200°F)
Dosage	Personal Care: 1%–5%; Body Mist: 4–9%; Home Fragrance: 6%–10% Eau de Parfum (EDP): 12–25%; Fine Perfume: 15–25%; Shower Gel & Shampoo: 0.2–1.0%;
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

MS 2223

Applications & Functions:

The concentrated Bois Impérial fragrance oil functions primarily as an advanced compounding and scent-infusion agent designed to mirror the sophisticated woody-spicy character of the acclaimed modern perfume. Chemically formulated for high performance, its core function is to deliver an exceptionally diffusive, long-lasting olfactory profile that transitions smoothly from sparkling, crisp herbal notes to deep, modern synthetic and upcycled woods. As a concentrated, alcohol-free matrix, it acts as an effective fixative, binding highly volatile top notes like Timut pepper and basil to slow down evaporation and ensure extended tenacity on the skin. Furthermore, it functions as an aesthetic masking agent in personal care manufacturing, seamlessly neutralizing harsh chemical odors inherent in raw cosmetic bases while imparting an aura of refined, clean luxury, contemporary elegance, and persistent woody warmth.

This versatile fragrance oil features widespread commercial and artisan applications across fine perfumery, cosmetics, and lifestyle goods. In fine fragrance production, it serves as the foundational active ingredient for crafting alcohol-based eau de toilettes, high-end oil-based roll-ons, and solid perfumes. Its clean skin-compatibility makes it exceptionally popular for formulations in personal care lines, including luxury body lotions, nourishing creams, hydrating body washes, and soothing aftershaves. It is also widely utilized in premium hair care regimens, such as smoothing hair oils, shampoos, and deep-conditioning masks. Beyond body products, artisan creators incorporate this distinct woody-spicy oil into home fragrance sectors, manufacturing scented soy wax candles, luxury room sprays, specialized linen refreshers, and custom automotive diffusers to provide a modern, captivating atmospheric ambiance.

Industrial Applications

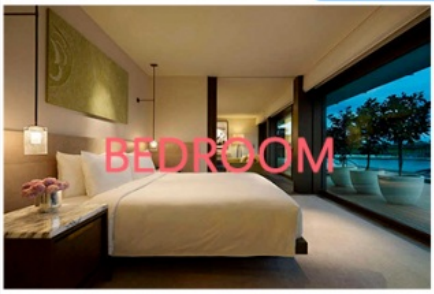

Primary applications include:

- **Attars and Concentrated Perfume Oils (CPO):** Ideal for alcohol-free, highly potent luxury oils
- **Fine Fragrances:** Used in "Intense" or "Nuit" perfume versions requiring heavy sillage
- **Premium Home Fragrancing:** Top-tier choice for Bakhoor and luxury incense production
- **Hospitality Sector:** Utilized in high-output nebulizers for hotel lobbies and boutiques
- **Personal Care:** Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.
