Product Description

Fragrance oils Body Wash IFRA Aloe Vera Fragrance Oil Safeguard Fragrance oil For Shower gel &Shampoo &Scented Soap Making /Productions with Free Sample

Product Code: LDZ-PL21222

Aloe Vera Safeguard Fragrance Oil features a refreshing, clean, and soothing aromatic character inspired by the fresh scent of aloe vera and gentle botanical ingredients. Specially suited to shower gel, shampoo, and scented soap manufacturing, this fragrance creates a pleasant bathing experience with a distinctive feeling of freshness and everyday comfort. Its opening reveals crisp green notes, watery accords, and subtle citrus nuances, delivering a light and invigorating first impression reminiscent of freshly cut aloe leaves. As the fragrance develops, soft herbal and delicate floral elements emerge, adding natural freshness and a gentle botanical character without becoming overly sharp or medicinal. The heart is complemented by clean aquatic nuances, giving the composition a smooth and refreshing dimension. In the dry-down, soft white musk, light woody undertones, and delicate powdery accords provide a comforting finish, leaving a clean and pleasant aromatic impression.

Fragrance Profile & Characteristics:

Top notes	The fragrance opens with crisp green leaves, fresh aloe vera accords, and delicate citrus nuances. A refreshing blend of watery notes and light bergamot creates a clean, invigorating first impression, reminiscent of freshly cut botanical leaves and cool morning freshness.
Middle notes	The heart reveals a gentle combination of herbal accords, soft white florals, and refreshing aquatic nuances. Subtle cucumber-like freshness adds a smooth, watery dimension, while delicate green botanical notes enhance the natural-inspired character. These elements create a soothing and balanced aromatic experience without excessive sweetness.
Base notes	As the fragrance settles, soft white musk, light sandalwood, and delicate powdery accords provide a comfortable foundation. Gentle woody nuances add depth, while clean musky tones leave a smooth, fresh, and lasting impression.

Technical Specifications:

Product Name	Aloe Vera Fragrance Oil
Fragrance Profile	Floral-Fruity-Woody aroma
Appearance	Clear, colorless to pale yellow liquid
Relative Density	0.936 to 0.990 g/cm³ @ 25°C

Shower Gel:	1% - 2%
Liquid Soap:	0.3–0.8%;
Bar Soap (CP/MP):	2% - 3%
Facial Cleanser:	0.1–0.5%

MG-SL

Functions and Applications:

Aloe Vera Safeguard Fragrance Oil is designed to introduce a refreshing botanical scent and a clean, comfortable aromatic experience into daily personal care products. Its combination of green aloe vera accords, watery freshness, and gentle herbal nuances creates a distinctive fragrance identity that appeals to consumers who prefer light and natural-inspired scents. One of its main functions is to enhance the sensory appeal of cleansing products, making everyday bathing and hair-washing routines more enjoyable. The soft floral and musky undertones help balance the fresh green character, preventing the fragrance from becoming too sharp or overly medicinal. For personal care manufacturers, this fragrance provides flexibility in developing refreshing product collections with a consistent botanical scent direction. It can also complement cucumber, green tea, citrus, and soft floral accords to create customized fragrance variations. Its clean and approachable character makes it suitable for products positioned around freshness, gentle cleansing, and everyday personal care. It contributes fragrance appeal rather than providing skincare or antibacterial benefits.

Applications:

Aloe Vera Safeguard Fragrance Oil is suitable for various rinse-off personal care formulations, particularly shower gels, shampoos, and scented soaps. In shower gel production, its refreshing green and aquatic character adds a pleasant fragrance dimension, creating a clean and invigorating bathing experience. For shampoo manufacturing, the light botanical aroma provides a fresh scent profile that complements daily hair-cleansing products, including herbal-inspired and refreshing shampoo collections. In liquid hand wash and scented soap formulations, its gentle fragrance character helps establish a recognizable product identity that appeals to consumers who enjoy clean, fresh aromas. Manufacturers can also explore its use in body wash, cleansing bars, and other compatible personal care products, subject to formulation testing. Its fragrance profile blends naturally with cucumber, green tea, citrus, white musk, and delicate floral notes, offering opportunities for customized product development. Before mass production, manufacturers should evaluate fragrance compatibility, color stability, and scent performance in the finished base. Recommended dosage and application suitability should follow the supplier's technical documentation and applicable IFRA standards.

Hair Care	Shampoos, clarifying rinses, and nourishing liquid hair masks.
Body Care	Hydrating shower gels, exfoliating body polishes, and foaming hand washes.
Bar Soap Manufacturing	Both melt-and-pour bases and traditional cold-process or hot-process artisan bars.
Bath Additives	Luxury bath bombs, bubble bath elixirs, and milk bath soaks.
