Product Description

IFRA &MSDS High Concentrated Fragrabce Oil Apricot & Cedarwood Perfume Oil For Perfume Making / Production With Free Sample

Product Code: LDZ-PL12422

The Apricot & Cedarwood concentrated fragrance oil delivers a sophisticated, beautifully balanced olfactory profile that marries luscious, sun-ripened fruit with deep, grounding woods. The experience opens with an inviting, mouthwatering burst of freshly sliced apricot and subtle hints of dewy green foliage, creating a bright and velvety fruitiness that feels naturally sweet. As the scent evolves, a luminous floral-fruity warmth emerges, blending delicate peach blossom with a touch of creamy nectar to smooth the transition. The dry-down settles into a rich, earthy foundation of warm cedarwood, soft amber, and a whisper of skin musk, where the cedarwood grounds the composition with a clean, dry depth. Engineered for perfume making and production, this high-concentration oil offers exceptional longevity and skin compatibility, allowing the warm woody base and juicy fruit top notes to melt seamlessly with natural body heat for a refined and modern trail.

Fragrance Profile:

Fragrance Notes	Description
Top Notes (Opening)	The experience opens with an inviting, mouthwatering burst of freshly sliced apricot and subtle hints of dewy green foliage. This bright, velvety fruitiness feels vibrant yet naturally sweet, avoiding any cloying heaviness.
Middle Notes (Heart)	As the scent evolves, a rich, luminous floral-fruity warmth emerges, blending delicate peach blossom with a touch of creamy nectar. This core softens the initial fruit brightness into a smooth, elegant transition.
Base Notes (Foundation)	The dry-down settles into a rich, earthy foundation of warm cedarwood, soft amber, and a whisper of skin musk. The cedarwood grounds the composition, adding a clean, dry, and slightly resinous depth that counters the sweetness of the fruit.

Technical Specifications:

Parameter	Specification
Fragrance Notes	Apricot & Cedarwood Perfume Oil
Appearance	Transparent to amber liquid
Relative Density	0.905–0.998g/cm³ @ 25°C
Refractive Index	1.482–1.605
Flash Point	>80°C
Dosage	Home Fragrance: 6%–10% Fine Perfume: 15–30%; Body Mist: 1%–5%; Soap/wash-off: 1.5-4% Eau de Parfum (EDP): 15–30%; Shower Gel & Shampoo: 0.2–1.0%; Body Oils/Lotions: 0.3–1%;
Diffusion Ability	Excellent aroma

Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions:

The Apricot & Cedarwood concentrated fragrance oil functions as a versatile, high-potency aromatic base designed to impart a harmonious blend of juicy fruit and grounding wood notes into various cosmetic and personal care products. Its primary function is to deliver a balanced olfactory experience—transitioning from a bright, velvety apricot top note through a creamy peach blossom heart to a warm, resinous cedarwood and amber base. Formulated without alcohol, this concentrated oil functions to anchor fragrance molecules securely to the lipid barrier of the skin, slowing evaporation rates and ensuring prolonged wear time. It stabilizes complex fruit and wood accords, allowing them to remain cohesive and true over hours of wear. Furthermore, its rich oil-compatible profile enables it to integrate smoothly into lipophilic bases, enhancing skin-feel and radiance while projecting a refined, modern, and natural scent trail throughout the lifecycle of the finished formulation.

This concentrated fragrance oil is exceptionally well-suited for a wide array of commercial and artisanal personal care production. Its primary application is in fine perfumery, where it is utilized to formulate alcohol-free perfume oils, oil-based roll-ons, and solid fragrances that benefit from an intimate yet long-lasting sillage. Beyond traditional perfumery, it is heavily favored in luxury body care manufacturing, including rich body oils, hydrating lotions, whipped shea butters, and post-bath massage oils, where the oil-based format naturally complements the fragrance carrier. It is also an ideal choice for crafting artisanal bath and body items, such as luxury soap bars, bath melts, and exfoliating body scrubs, imparting a warm, sophisticated aroma that remains stable. Additionally, formulators frequently incorporate it into hair care items, cuticle oils, and targeted cosmetic balms to deliver an inviting and modern botanical scent experience.

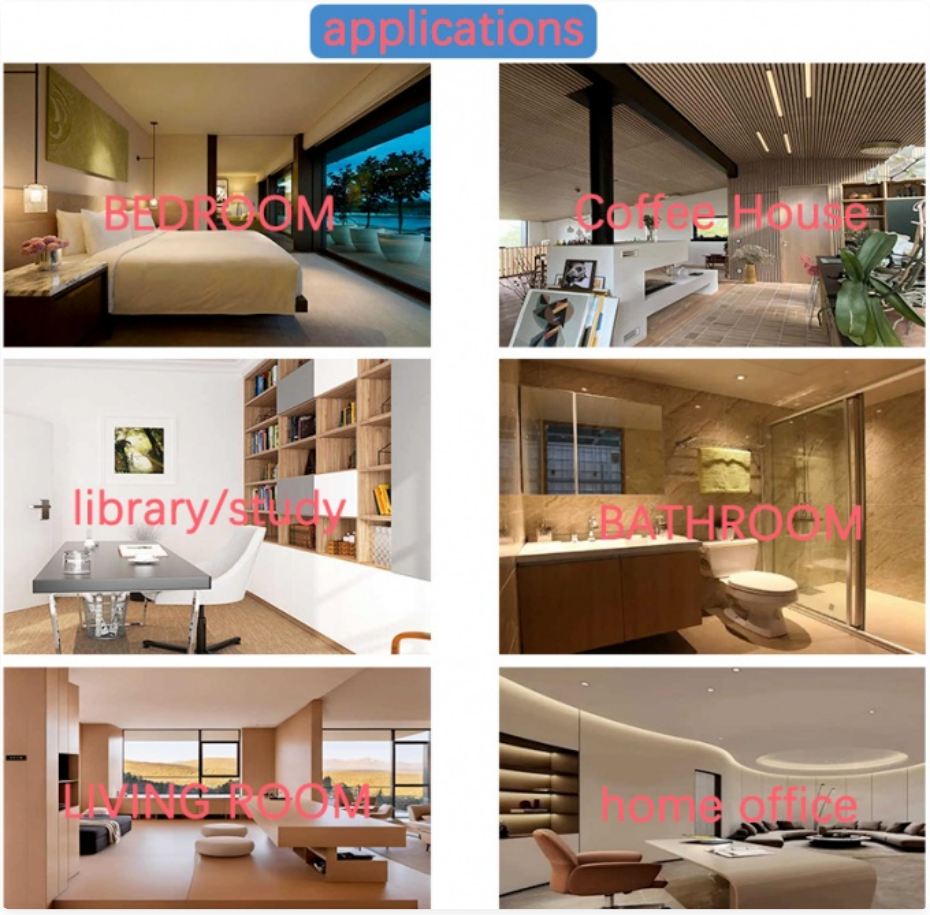

Industrial Applications

Primary applications include:

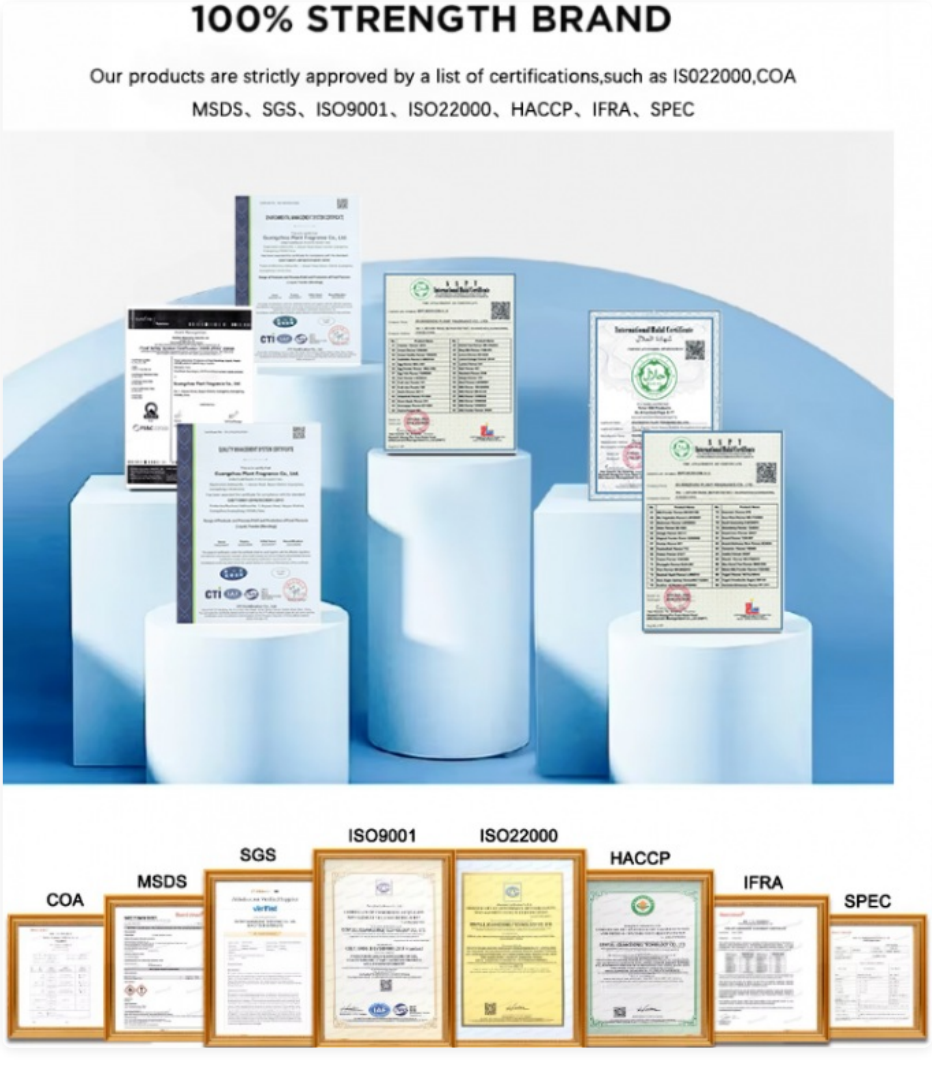

- **Attars and Concentrated Perfume Oils (CPO):** Ideal for alcohol-free, highly potent luxury oils
- **Fine Fragrances:** Used in "Intense" or "Nuit" perfume versions requiring heavy sillage
- **Premium Home Fragrancing:** Top-tier choice for Bakhoor and luxury incense production
- **Hospitality Sector:** Utilized in high-output nebulizers for hotel lobbies and boutiques
- **Personal Care:** Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.
