Product Description

IFRA&MSDS Concentrated Perfume Oil Body Using Bur-berry Her Scent Fragrance oil For Perfume Making / Production With Free Sample

Product Code: LDZ-PL12443

Crafted for sophisticated perfume making, this concentrated fragrance oil captures the vibrant, modern essence of Bur-berry Her, opening with a lush, mouth-watering burst of juicy dark and red berries—including strawberry, blackberry, and blackcurrant—that instantly captivates the senses. As the bright initial sweetness settles, the scent unfolds into an elegant, powdery floral heart of delicate jasmine and violet, introducing a sophisticated air of romance. Finally, the oil grounds into a warm, sensual foundation of smooth cashmeran, dry amber, and clean musk. Amplified by the rich concentration of an oil base, these deeper notes bloom seamlessly on the skin, leaving behind an addictive, velvety trail with exceptional longevity that balances youthful playfulness with upscale allure.

Fragrance Profile:

Fragrance Notes	Description
Top Notes (Opening)	An immediate, mouth-watering explosion of dark and red berries—primarily strawberry, raspberry, blackberry, and blackcurrant. This creates a playful, juicy, and sweet opening that instantly captivates.
Middle Notes (Heart)	The intense fruitiness gracefully softens into a romantic, powdery floral bridge featuring jasmine and violet. This introduces an elegant, airy femininity that keeps the sweetness sophisticated rather than cloying.
Base Notes (Foundation)	The oil settles into a warm, sensual, and cozy foundation of musk, dry amber, cashmeran, and wood accents. Because it is a concentrated oil, the cashmeran and amber notes bloom slowly on the skin, creating a smooth, skin-like "clean yet addictive" trail with remarkable staying power.

Technical Specifications:

Parameter	Specification
Fragrance Notes	Bur-berry Her Scent Fragrance oil
Appearance	Transparent to amber liquid
Relative Density	0.885–1.050g/cm³ @ 25°C
Refractive Index	1.475–1.505
Flash Point	>75°C
Dosage	Body Mist: 1%–5%; Eau de Parfum (EDP): 15–30%; Soap/wash-off: 1.5-4% Fine Perfume: 15–30%; Shower Gel & Shampoo: 0.2–1.0%; Home Fragrance: 6%–10% Body Oils/Lotions: 0.3–1%;
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water

IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions:

As a concentrated fragrance oil designed for perfume making, its primary function is to serve as the aromatic heart of various cosmetic and personal care creations. Because it is formulated without alcohol, it acts as a slow-release scent matrix, anchoring the vibrant berry and warm musk notes deeply into the skin for extended longevity. Its rich lipid-soluble composition allows it to bond seamlessly with carrier oils, butters, and waxes, preventing rapid evaporation and ensuring a linear, consistent fragrance evolution. Furthermore, it functions as a versatile blending base that can stand alone as a signature roll-on attar or be diluted with perfumer's alcohol to construct traditional spray perfumes. By utilizing high-purity fragrance compounds, it imparts a luxurious, high-end sensory profile while nourishing the skin rather than drying it out, making it an ideal medium for sensitive-skin formulations and customizable artisanal perfumery projects.

This versatile fragrance oil is exceptionally well-suited for a wide array of personal care and artisanal cosmetic applications. In fine fragrance production, it can be diluted with perfumers alcohol or fractionated coconut oil to create bespoke eau de parfums, body mists, or traditional alcohol-free rollerball attars. For body care, it integrates smoothly into whipped body butters, nourishing lotions, massage oils, and dry body oils, imparting a lingering, sophisticated scent trail that enhances the moisturizing experience. It is also highly effective in artisanal solid perfumes and luxury beeswax or soy wax candles, where the concentrated oils withstand heat well and release a steady aroma. Additionally, creators frequently use it to scent handcrafted cold-process soaps, hair serums, and luxurious bath salts, allowing crafters to deliver a consistent, high-end signature scent across an entire boutique product line.

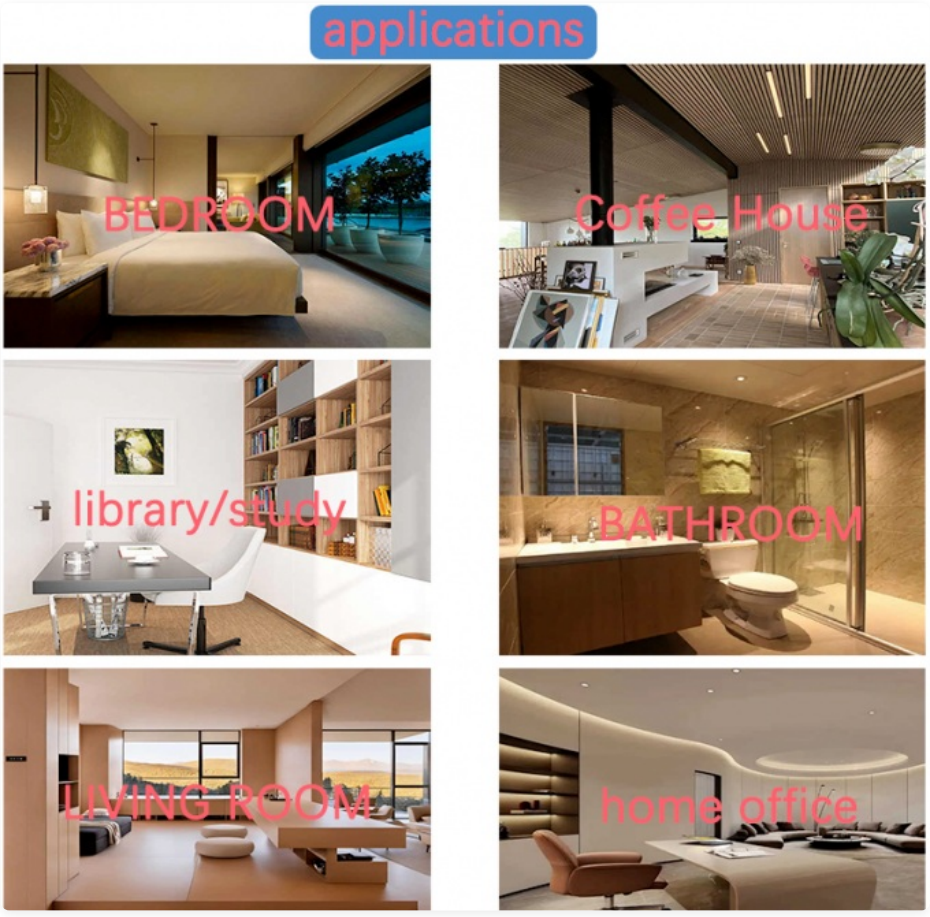

Industrial Applications

Primary applications include:

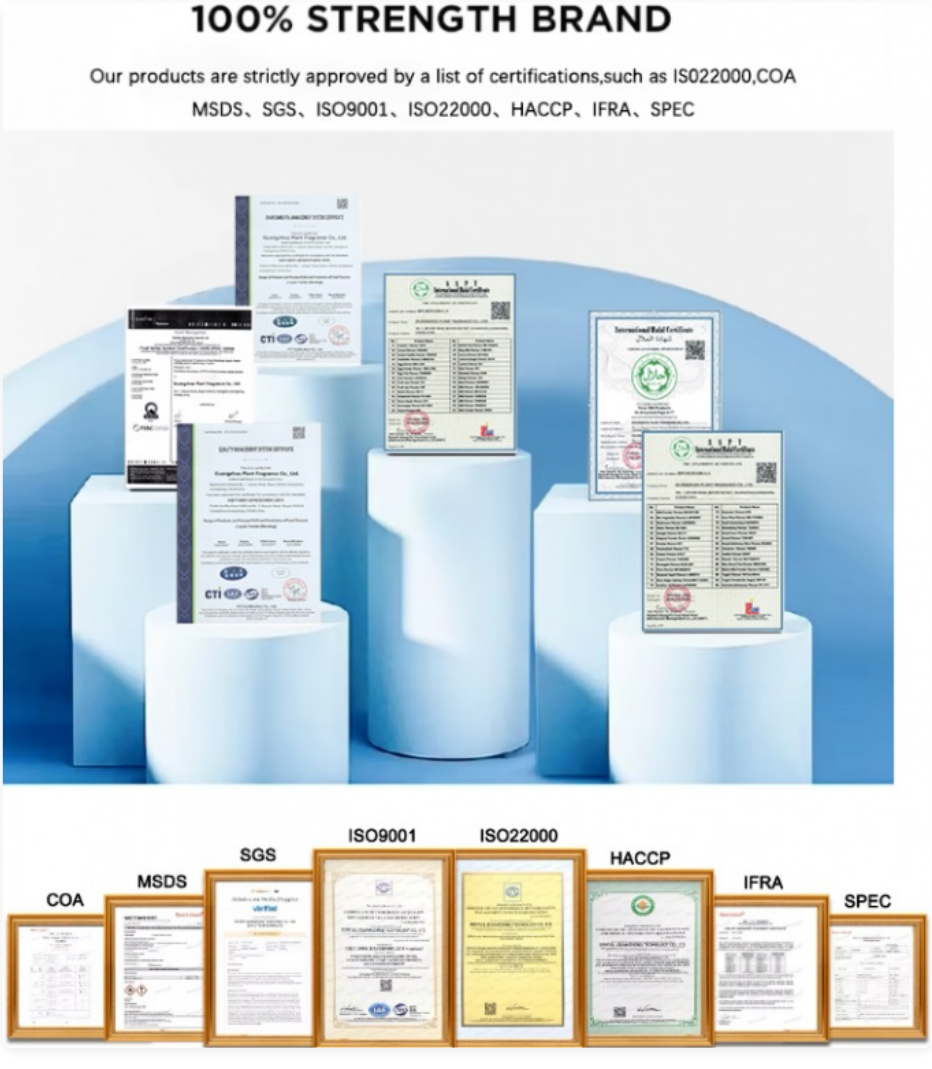

- **Attars and Concentrated Perfume Oils (CPO):** Ideal for alcohol-free, highly potent luxury oils
- **Fine Fragrances:** Used in "Intense" or "Nuit" perfume versions requiring heavy sillage
- **Premium Home Fragrancing:** Top-tier choice for Bakhoor and luxury incense production
- **Hospitality Sector:** Utilized in high-output nebulizers for hotel lobbies and boutiques
- **Personal Care:** Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.
