Product Description

IFRA Fragrance Oil For Perfume Lanvin Éclat d'Arpège Fragrance Oil For Perfume Making/Production With Free Sample

Product Code: LDZ-PL12483

The scent opens with an invigorating, dew-kissed freshness, driven by luminous green lilac and crisp, zesty Sicilian lemon leaves. This vibrant introduction immediately evokes the crisp morning air of a springtime garden.
As the fragrance evolves, the heart unfolds into a velvety, feminine floral bouquet. Sweet peach blossom mingles with lush red peony and transparent wisteria, anchored subtly by green tea leaves that lend a clean, airy, and translucent quality to the composition.
The dry down settles into a soft, comforting embrace. A refined fusion of white cedar of Lebanon, gentle musks, and precious amber creates a subtle, skin-like sensuality. This base ensures the oil leaves a discreet yet lingering trail.
In production, this fragrance oil delivers exceptional versatility, making it ideal for high-end personal care products, fine fragrances, and luxury cosmetics. Its universally adored, airy profile appeals strongly to consumers seeking effortless sophistication and timeless, gentle femininity.

Fragrance Profile:

Fragrance Notes	Description
Top Notes (Opening)	The top notes open with an instant burst of crisp freshness, combining luminous green lilac and zesty Sicilian lemon leaves. This lively introduction creates an invigorating, dew-kissed morning effect that immediately captures attention.
Middle Notes (Heart)	The middle notes transition into a lush, feminine floral heart. Delicate peach blossom mingles with vibrant red peony and transparent wisteria. This floral arrangement is balanced by green tea leaves, imparting a clean, airy, and translucent quality that prevents the blend from becoming heavy.
Base Notes (Foundation)	The base notes settle into a comforting, intimate dry down. A refined fusion of white cedar of Lebanon, gentle musks, and precious amber grounds the composition. This foundation provides a subtle, skin-like sensuality, ensuring the fragrance leaves a sophisticated and lingering trace in formulations.

Technical Specifications:

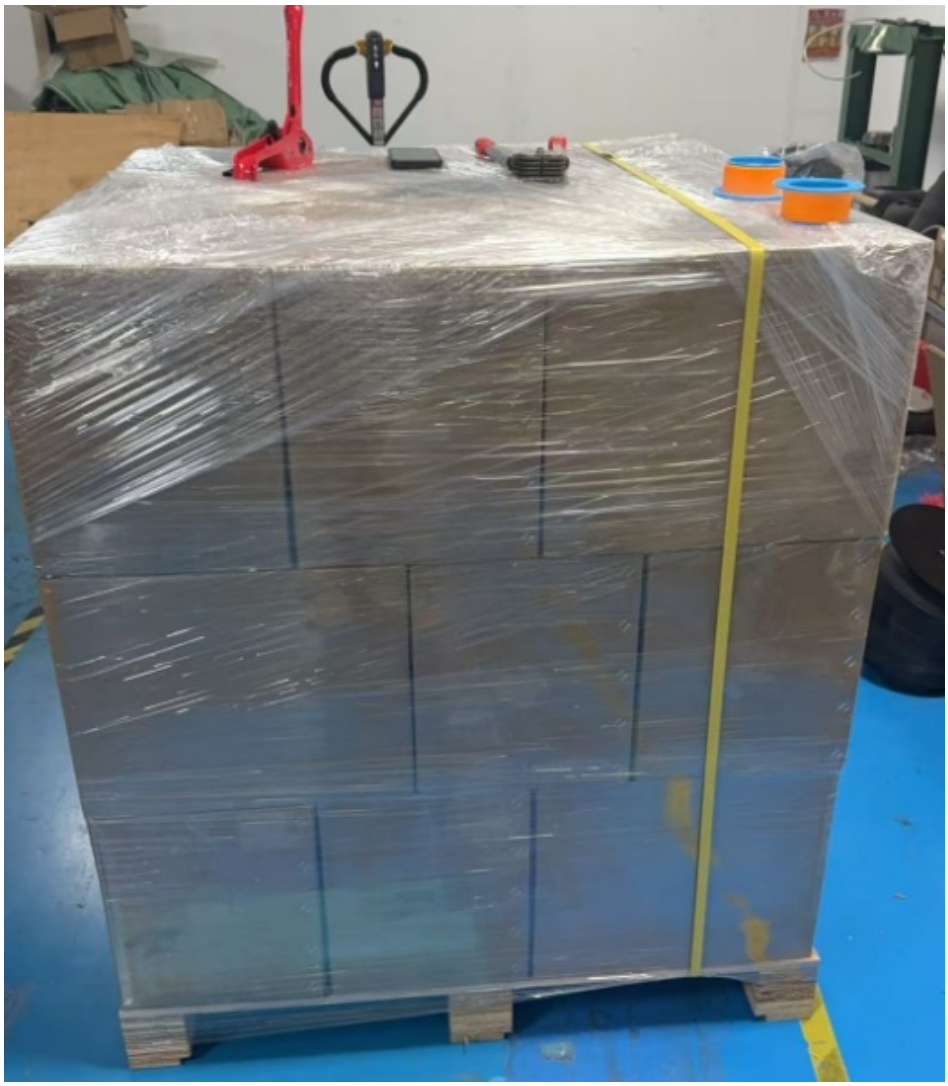

Parameter	Specification
Fragrance Notes	Lanvin Éclat d'Arpège Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	0.885–1.048 g/cm³ @ 25°C
Refractive Index	1.450–1.520
Flash Point	>93.3°C (200°F)
Dosage	Home Fragrance: 6%–10% Shower Gel & Shampoo: 0.2–1.0%; Eau de Parfum (EDP): 12–25%; Personal Care: 1%–5%; Body Mist: 4–9%; Fine Perfume: 15–25%;
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

MS 2223

Applications & Functions:

As a specialized fragrance oil, Lanvin Éclat d'Arpège performs several vital aromatic and formulation functions. Primarily, it acts as an olfactory harmonizer, expertly blending crisp fruitiness with translucent florals to create an aura of effortless elegance and modern sophistication. In production, it functions as a scent modifier and fixative base, designed to impart a long-lasting, ethereal signature across various cosmetic matrices. Its clean green tea and cedarwood undertones neutralize harsher chemical base odors inherent in unscented surfactant or emollient bases. Furthermore, it acts as a sensory enhancer, leveraging its universally appealing profile to evoke positive emotional responses like relaxation and springtime renewal. In complex cosmetic formulations, it also serves as a viscosity-neutral scent

agent, integrating seamlessly without destabilizing emulsions, surfactants, or alcohol solutions. Finally, it acts as a market differentiator, elevating mid-tier products into luxury lines through its high-end, universally adored olfactory signature.

This versatile fragrance oil finds extensive application across multiple manufacturing sectors. In fine perfumery and body sprays, it serves as the core aromatic extract for alcohol-based perfumes, eau de toilettes, and refreshing hair mists. Within the personal care and skincare industry, it is widely applied in luxury body lotions, rich body milks, hydrating facial creams, and nourishing body oils, imparting a lingering, delicate scent. For hair care manufacturing, it is utilized in scented shampoos, weightless conditioners, and scalp serums, ensuring the hair retains an uplifting floral fragrance throughout the day. It is also heavily favored in cleansing and bath products, including artisan shower gels, bubble baths, luxury hand soaps, and bath salts, where its top notes remain stable despite warm water exposure. Lastly, it is increasingly adopted in home fragrance and lifestyle products, such as high-end scented candles, reed diffusers, and linen sprays, creating a serene, sophisticated ambiance.

Industrial Applications

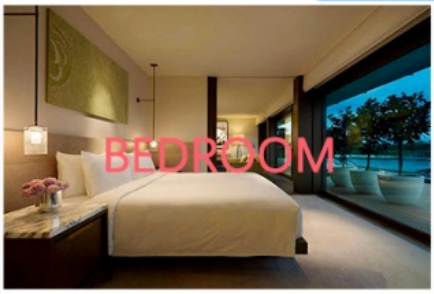

Primary applications include:

- **Attars and Concentrated Perfume Oils (CPO):** Ideal for alcohol-free, highly potent luxury oils
- **Fine Fragrances:** Used in "Intense" or "Nuit" perfume versions requiring heavy sillage
- **Premium Home Fragrancing:** Top-tier choice for Bakhoor and luxury incense production
- **Hospitality Sector:** Utilized in high-output nebulizers for hotel lobbies and boutiques
- **Personal Care:** Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.
