Product Description

IFRA Concentrated Body Using Perfume Oil Rubus idaeus Fragrance Oil Essence Oil For Perfume Making / Production With Free Sample

Product Code: LDZ-PL12458

It captures the delightful aroma of ripe red raspberries, presenting a vibrant combination of juicy fruitiness, refreshing sweetness, and delicate floral nuances. Its opening delivers a bright, succulent berry impression, reminiscent of freshly picked raspberries with a pleasant balance of natural sweetness and gentle tartness. As the fragrance develops, a soft floral character emerges, adding a subtle rosy dimension that makes the fruity accord feel more elegant and sophisticated. Delicate powdery undertones further enhance its smooth and rounded personality, preventing the sweetness from becoming overly sharp or sugary. The overall composition creates an appealing contrast between fresh berry brightness and a warm, slightly jam-like richness. In perfume formulations, this raspberry-inspired fragrance can bring a playful yet refined character to fruity-floral compositions. It blends beautifully with complementary accords such as strawberry, blackcurrant, rose, violet, vanilla, musk, and amber, offering considerable creative flexibility for perfume developers. With its recognizable red-fruit identity and attractive aromatic versatility, this concentrated fragrance oil is an excellent choice for developing modern personal perfumes, distinctive signature scents, and youthful, appealing fragrance collections.

Fragrance Profile:

Fragrance Notes	Description
Top Notes (Opening)	Top Notes: Raspberry, Red Berries, Citrus, Green Accords The fragrance opens with a burst of juicy, freshly ripened raspberries. Sweet red berries create a vibrant fruity impression, while subtle citrus notes add refreshing brightness. A delicate green nuance introduces a natural freshness, balancing the berry sweetness with a slightly tart and lively character.
Middle Notes (Heart)	Middle Notes: Raspberry, Rose, Violet, Jasmine At the heart, the raspberry accord becomes softer and more sophisticated. Delicate rose enhances its naturally rosy facets, while violet contributes a gentle powdery sweetness. Jasmine adds a smooth floral dimension, creating an elegant fruity-floral combination. These notes enrich the composition without overpowering its recognizable raspberry identity.
Base Notes (Foundation)	Base Notes: Vanilla, White Musk, Amber, Soft Woods The dry-down develops into a warm, smooth, and comforting finish. Creamy vanilla enhances the fruity sweetness, while white musk provides a clean, delicate softness. Amber introduces gentle warmth, complemented by subtle woody undertones that give the fragrance a rounded and lasting impression.

Technical Specifications:

Parameter	Specification
Fragrance Notes	Rubus idaeus Fragrance Oil
Appearance	Transparent to amber liquid

Relative Density	0.950–1.050g/cm³ @ 25°C
Refractive Index	1.485–1.515
Flash Point	>80°C
Dosage	Home Fragrance: 6%–10% Eau de Parfum (EDP): 15–30%; Fine Perfume: 15–30%; Soap/wash-off: 1.5-4% Body Mist: 1%–5%; Shower Gel & Shampoo: 0.2–1.0%; Body Oils/Lotions: 0.3–1%;
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)

IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions:

Perfume Oil Rubus Idaeus Fragrance Oil is formulated to introduce a vibrant raspberry-inspired character into modern personal fragrance creations. Its distinctive fruity profile combines juicy red berry sweetness, refreshing tartness, and delicate floral undertones, offering an appealing aromatic direction for perfume manufacturers. One of its key functions is to enrich fragrance compositions with a recognizable fresh-fruit identity while adding softness and sweetness to the overall scent structure. The raspberry accord can create an attractive opening, complement floral heart notes, and blend harmoniously with warm vanilla, musk, and woody ingredients. This versatility allows perfumers to develop different fragrance styles, ranging from playful fruity compositions to sophisticated fruity-floral blends. Its concentrated nature also provides flexibility in fragrance formulation, enabling adjustments to berry intensity, sweetness, and aromatic balance according to product requirements. For perfume brands, this fragrance oil offers an opportunity to create distinctive products that appeal to consumers who enjoy fresh, delicious, and contemporary fruit-inspired scents.

Perfume Oil Rubus Idaeus Fragrance Oil is suitable for developing a variety of fruity-inspired personal fragrance products. Its juicy raspberry character makes it an attractive ingredient for eau de parfum, eau de toilette, concentrated perfume oils, and customized fragrance sprays. In alcohol-based perfume formulations, it can serve as a prominent fruity accord or complement floral, gourmand, and musky ingredients to create more complex scent combinations. It is particularly suitable for developing youthful signature fragrances, sweet berry collections, and contemporary fruity-floral perfume concepts. Additionally, this fragrance oil can be explored in scented body mists, perfumed lotions, shower gels, and other coordinated personal care products, provided its composition meets the relevant application requirements. For private-label manufacturers and niche perfume brands, its recognizable raspberry identity offers creative opportunities for seasonal collections, romantic fragrance themes, and refreshing everyday scents. It also blends attractively with strawberry, blackcurrant, rose, vanilla, and white musk accords, allowing formulators to customize the final fragrance according to different market preferences. Recommended dosage should be established through formulation and stability testing, following applicable IFRA standards.

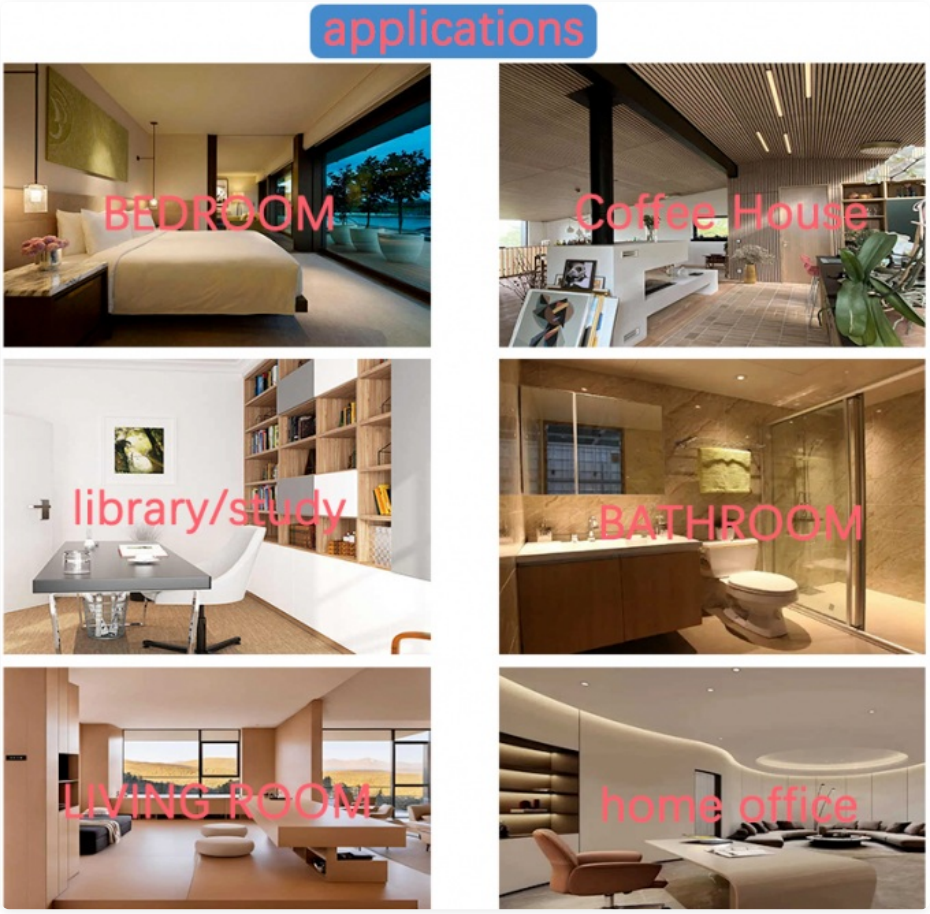

Industrial Applications

Primary applications include:

- **Attars and Concentrated Perfume Oils (CPO):** Ideal for alcohol-free, highly potent luxury oils
- **Fine Fragrances:** Used in "Intense" or "Nuit" perfume versions requiring heavy sillage
- **Premium Home Fragrancing:** Top-tier choice for Bakhoor and luxury incense production
- **Hospitality Sector:** Utilized in high-output nebulizers for hotel lobbies and boutiques
- **Personal Care:** Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.
