Product Description

IFRA &MSDS High Concentrated Perfume Oil Crab Apple Blossom(Clive Christian) Fragrance Oil For Perfume Making / Production With Free Sample

Product Code: LDZ-PL12459

Clive Christian's Crab Apple Blossom is a sophisticated citrus-aquatic fragrance oil rooted in an 1886 heritage formulation, meticulously engineered for fine fragrance production and luxury perfumery. The olfactory profile opens with a crisp, invigorating burst of apple blossom, marine bergamot, and sea notes, evoking a sparkling spring atmosphere. The heart introduces a modern, bittersweet complexity through green rhubarb and an effervescent mojito accord, infusing the composition with a lively, contemporary twist. Finally, the fragrance anchors into a velvety, sophisticated base of warm sandalwood and driftwood, ensuring exceptional structural integrity and a smooth, long-lasting dry down ideal for high-end extrait and personal care applications.

The Valentino Donna Born in Roma Coral Fantasy fragrance oil opens with an energetic, radiant splash of Brazilian orange and juicy kiwi accord that captures the vibrant, sun-drenched spirit of a Roman sunset. As it develops, the scent transitions into a sophisticated, couture-inspired floral core, where rich Indian jasmine and romantic rose blend harmoniously with nutty ambrette seed for tactile depth. The dry-down settles into a warm, sensual foundation of clean white musk and woody Texas cedar, leaving a lingering, modern trail. Formulated as a high-concentrated oil, it offers exceptional longevity and skin-adherence without alcohol, allowing the complex fruity, floral, and musky facets to meld seamlessly with body heat for luxury perfume production.

Technical Specifications:

Parameter	Specification
Fragrance Notes	Apple Blossom, Marine Bergamot, and Sea Notes—delivering an invigorating, crisp burst of spring florals and oceanic air.
Appearance	Transparent to amber liquid
Relative Density	0.905–0.998g/cm³ @ 25°C
Refractive Index	1.460–1.525
Flash Point	>80°C
Dosage	Home Fragrance: 6%–10% Soap/wash-off: 1.5-4% Fine Perfume: 15–30%; Eau de Parfum (EDP): 15–30%; Shower Gel & Shampoo: 0.2–1.0%; Body Oils/Lotions: 0.3–1%; Body Mist: 1%–5%;

Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions:

The primary function of this luxury-grade fragrance oil is to serve as an exquisitely complex, highly concentrated aromatic base that replicates the vibrant, multi-layered profile of Clive Christian's heritage creation. Engineered with exceptional structural depth, its core function is to deliver a long-lasting, highly diffusive olfactory experience that smoothly transitions from a sparkling, crisp citrus-aquatic opening through an effervescent, bittersweet floral-fruity heart into a warm, velvety woody dry-down. It functions as a masterclass in raw material balancing, binding volatile top notes like marine bergamot and apple blossom with heavy, resinous base fixatives such as sandalwood and driftwood. By imparting both invigorating freshness and plush, sophisticated warmth, it functions to elevate an entire formulation, providing the signature longevity, metamorphosis on skin, and prestige character expected of high-end independent and niche perfumery houses.

This versatile fragrance oil is specifically formulated for high-end perfume making and production, acting as the primary scent concentrate for fine fragrances, luxury extraits, and high-concentration Eau de Parfums. Because of its robust fixation and complex architecture, it is widely applied in artisanal and commercial manufacturing of premium personal care goods, including prestige body lotions, scented hair mists, luxury bath oils, and artisan soaps. In bespoke perfumery, it serves as a stellar standalone theme or an upscale blending accord that pairs seamlessly with additional citrus, green, floral, or woody isolates. Furthermore, it finds robust application in upscale ambient scenting products—such as bespoke home reed diffusers, luxury soy candles, and high-end room sprays—where its bright spring blossom profile and deep woody anchor maintain stability and clear diffusion across diverse functional bases.

Industrial Applications

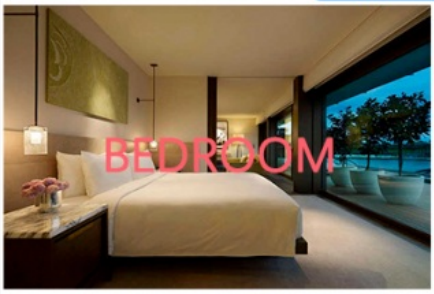

Primary applications include:

- **Attars and Concentrated Perfume Oils (CPO):** Ideal for alcohol-free, highly potent luxury oils
- **Fine Fragrances:** Used in "Intense" or "Nuit" perfume versions requiring heavy sillage
- **Premium Home Fragrancing:** Top-tier choice for Bakhoor and luxury incense production
- **Hospitality Sector:** Utilized in high-output nebulizers for hotel lobbies and boutiques
- **Personal Care:** Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.
