Product Description

Factory Directly Concentrated Mugler Starlicious Pistachio Praline Fragrance oil For Perfume Making/Production With Free Sample IFRA &MSDS Certifications

Product Code: LDZ-PL12480

The Concentrated Mugler Starlicious Pistachio Praline Fragrance Oil belongs to the Gourmand Woody olfactory family, balancing edible indulgence with sophisticated depth. Formulated for high-performance perfume production, its structure unfolds across three distinct layers. The top note opens with a rich, toasted nutty profile that immediately captures attention, offering a toasty, sweet edge that feels modern and mouth-watering. The heart evolves into a buttery, deeply creamy caramel praline core, introducing a luscious sweetness that mimics high-end confections and wraps the skin in a warm, plush aura. Finally, the base is anchored by a subtle touch of warm patchouli, providing an earthy, woody contrast. This grounding finish cuts through the heavy sweetness, lending the oil an elevated, long-lasting luxury trail. Overall, this concentrated oil yields a smooth, enveloping, and highly addictive signature—striking the ideal balance between cozy comfort and sensual elegance for any discerning fragrance creation.

Fragrance Profile:

Fragrance Notes	Description
Top Notes (Opening)	Opens with a rich, toasted nutty profile that immediately captures attention, offering a toasty, sweet edge that feels both modern and mouth-watering.
Middle Notes (Heart)	Evolves into a buttery, deeply creamy core. This phase introduces a luscious sweetness that mimics high-end confections and summer mocktails, wrapping the skin in a warm, plush aura.
Base Notes (Foundation)	Anchored by a subtle touch of warm patchouli, providing an earthy, woody contrast. This grounding finish cuts through the heavy sweetness, lending the oil an elevated, long-lasting luxury trail.

Technical Specifications:

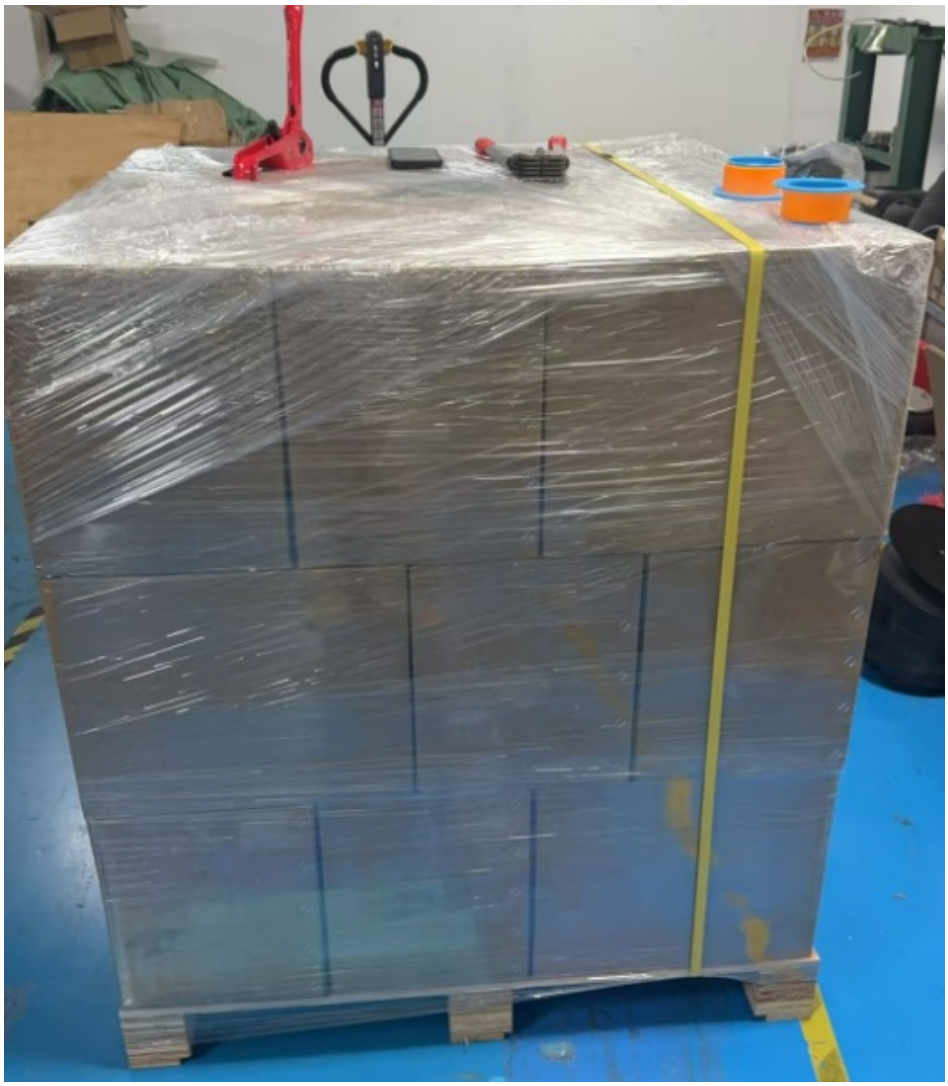

Parameter	Specification
Fragrance Notes	Mugler Starlicious Pistachio Praline Fragrance oil
Appearance	Transparent to amber liquid
Relative Density	0.705–0.998 g/cm³ @ 25°C
Refractive Index	1.450–1.520
Flash Point	>93.3°C (200°F)
Dosage	Personal Care: 1%–5%; Fine Perfume: 15–25%; Shower Gel & Shampoo: 0.2–1.0%; Body Mist: 4–9%; Home Fragrance: 6%–10% Eau de Parfum (EDP): 12–25%;
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

MS 2223

Applications & Functions:

The primary function of the Concentrated Mugler Starlicious Pistachio Praline Fragrance Oil is to act as a high-performance, multifaceted aromatic building block designed to impart a rich, long-lasting, and deeply comforting gourmand signature into various scented formulations. Functioning as an intense core matrix, it serves to anchor volatile top notes while offering a velvety, sweet mid-to-base profile characterized by toasted pistachio, buttery caramel, and earthy patchouli. In commercial and artisanal production, it functions as a fixative and character-builder, imparting structural warmth, sensual depth, and tactile opulence. Because it is highly concentrated, it functions efficiently at low inclusion rates, allowing formulators to achieve maximum olfactory impact without destabilizing alcohol or surfactant

bases. Furthermore, it functions as an intuitive blending agent, engineered to harmonize seamlessly with tropical, fruity, and woody accords, thereby providing creators with exceptional versatility to modulate sweetness levels, enhance sillage, and build custom, multi-dimensional fragrance trails for diverse consumer markets.

This concentrated fragrance oil boasts a wide array of applications primarily within fine fragrance creation, personal care manufacturing, and cosmetic production. Its main commercial application is in the formulation of luxury alcohol-based perfumes, sophisticated body mists, and specialized hair fragrances inspired by modern mocktail and dessert profiles. Beyond traditional perfumery, its rich composition makes it exceptionally well-suited for functional cosmetics, including rich body lotions, nourishing skin creams, luxury shower gels, body scrubs, and artisanal artisan soaps that require a lingering, high-end dessert-like scent. It is also widely utilized in home fragrance manufacturing to produce high-end scented candles, room sprays, and reed diffusers that benefit from a cozy, inviting atmosphere. Because of its intense concentration and skin-safe formulation parameters when properly diluted, independent perfumers and industrial manufacturers alike rely on it to craft bespoke layering collections, seasonal limited-edition product drops, and signature scent lines tailored for modern gourmand enthusiasts.

Industrial Applications

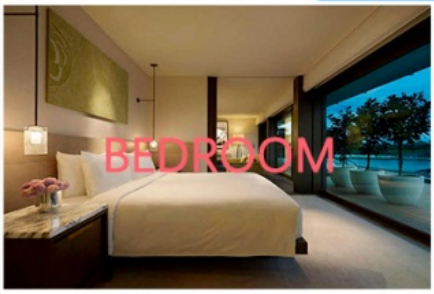

Primary applications include:

- **Attars and Concentrated Perfume Oils (CPO):** Ideal for alcohol-free, highly potent luxury oils
- **Fine Fragrances:** Used in "Intense" or "Nuit" perfume versions requiring heavy sillage
- **Premium Home Fragrancing:** Top-tier choice for Bakhoor and luxury incense production
- **Hospitality Sector:** Utilized in high-output nebulizers for hotel lobbies and boutiques
- **Personal Care:** Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.
