Product Description

IFRA&MSDS Concentrated Perfume Bur-berry Goddess Fragrance Oil For Perfume Making/Production With Free Sample

Product Code: LDZ-PL12442

Concentrated Bur-berry Goddess Fragrance Oil is an elegant gourmand aromatic fragrance that combines rich vanilla sweetness with luminous lavender and sophisticated woody nuances. Its distinctive character is built around a captivating trio of vanilla ingredients, creating multiple layers of sweetness, warmth, and creamy richness. The opening introduces a smooth vanilla infusion with subtle woody undertones, accompanied by refreshing lavender that brings an aromatic freshness and balances the gourmand sweetness. As the fragrance develops, the heart reveals a richer vanilla character, delivering a velvety, almost indulgent sweetness with a soft and comforting texture. The dry-down highlights deep vanilla absolute, creating a warm, sensual, and enveloping finish that leaves a memorable impression. Unlike conventional sugary fragrances, its appeal lies in the harmonious contrast between aromatic freshness and sophisticated vanilla richness. This composition offers a modern interpretation of feminine elegance, combining comforting sweetness with a refined, luxurious personality. With its distinctive gourmand profile and versatile blending potential, this concentrated perfume oil is suitable for developing premium women's perfumes, contemporary signature scents, and exclusive niche-inspired fragrance collections.

Fragrance Profile:

Fragrance Notes	Description
Top Notes (Opening)	The fragrance opens with a smooth and inviting vanilla infusion, accompanied by aromatic lavender that introduces a refreshing herbal nuance. A subtle cacao-like warmth adds a delicate gourmand touch, creating an intriguing contrast between creamy sweetness and aromatic freshness. This opening feels soft, comforting, and sophisticated.
Middle Notes (Heart)	At the heart, vanilla caviar reveals a richer and more concentrated vanilla character, bringing depth and a velvety texture to the composition. Lavender continues to provide a gentle floral-herbal freshness, preventing the sweetness from becoming overwhelming. Together, these elements create a beautifully balanced gourmand heart with an elegant aromatic personality.
Base Notes (Foundation)	The dry-down highlights luxurious vanilla absolute, delivering a deep, creamy, and long-lasting sweetness. Soft woody nuances provide warmth and structure, while delicate musk enhances the smoothness of the overall composition. The result is a comforting, sensual finish with a sophisticated gourmand signature.

Technical Specifications:

Parameter	Specification
Fragrance Notes	Bur-berry Goddess Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	0.945–0.998 g/cm³ @ 25°C
Refractive Index	1.505–1.535
Flash Point	>90°C (200°F)
Dosage	EDP:15–30% EDT:8–18% Body Mist:3–8% Grooming Products:0.3–1.0% Perfume Oil:20–40%
Diffusion Ability	Excellent aroma

Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions:

It is designed to bring a luxurious gourmand character to premium perfume formulations. Its distinctive combination of creamy vanilla, aromatic lavender, and warm woody nuances creates a balanced fragrance profile that blends comforting sweetness with refreshing elegance. One of its primary functions is to provide a rich vanilla identity while adding aromatic complexity and depth to finished perfume products. The lavender accords introduce a gentle freshness that helps balance the sweetness, while the layered vanilla character contributes a smooth, warm, and inviting scent impression. Its versatile composition allows perfume manufacturers to develop different fragrance styles, from soft everyday scents to more intense gourmand creations. It can also serve as a foundation for customized fragrance development, offering flexibility in adjusting sweetness, aromatic intensity, and woody warmth. With its recognizable vanilla-centered personality, this fragrance oil is particularly suitable for brands targeting consumers who appreciate sophisticated sweet fragrances, modern femininity, and comforting luxury.

It is suitable for manufacturing a variety of premium personal fragrance products. Its creamy vanilla sweetness and aromatic lavender character make it an attractive choice for eau de parfum, eau de toilette, concentrated perfume oils, and extrait de parfum formulations. In alcohol-based perfume production, it can be used as a central gourmand accord or blended with complementary ingredients such as amber, sandalwood, musk, and floral notes to create distinctive signature scents. It is particularly suitable for developing elegant women's perfume collections, warm vanilla-inspired fragrances, and modern niche-style perfume concepts. Beyond traditional perfumery, this

fragrance oil can also be explored in body mists, perfumed body lotions, shower gels, and other coordinated personal care products, provided it meets the relevant application and safety requirements. For OEM and ODM manufacturers, it offers opportunities to create customized fragrance collections with consistent vanilla-themed identities. Recommended dosage should be determined through formulation trials, stability testing, and applicable IFRA standards.

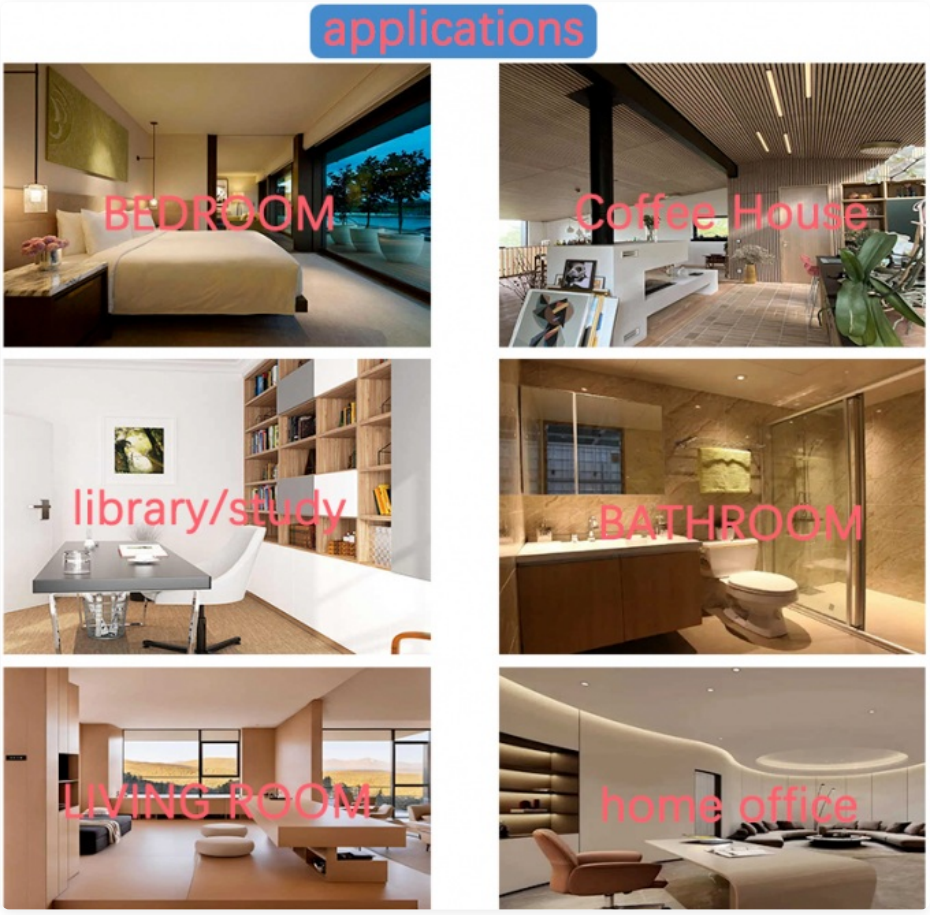

Industrial Applications

Primary applications include:

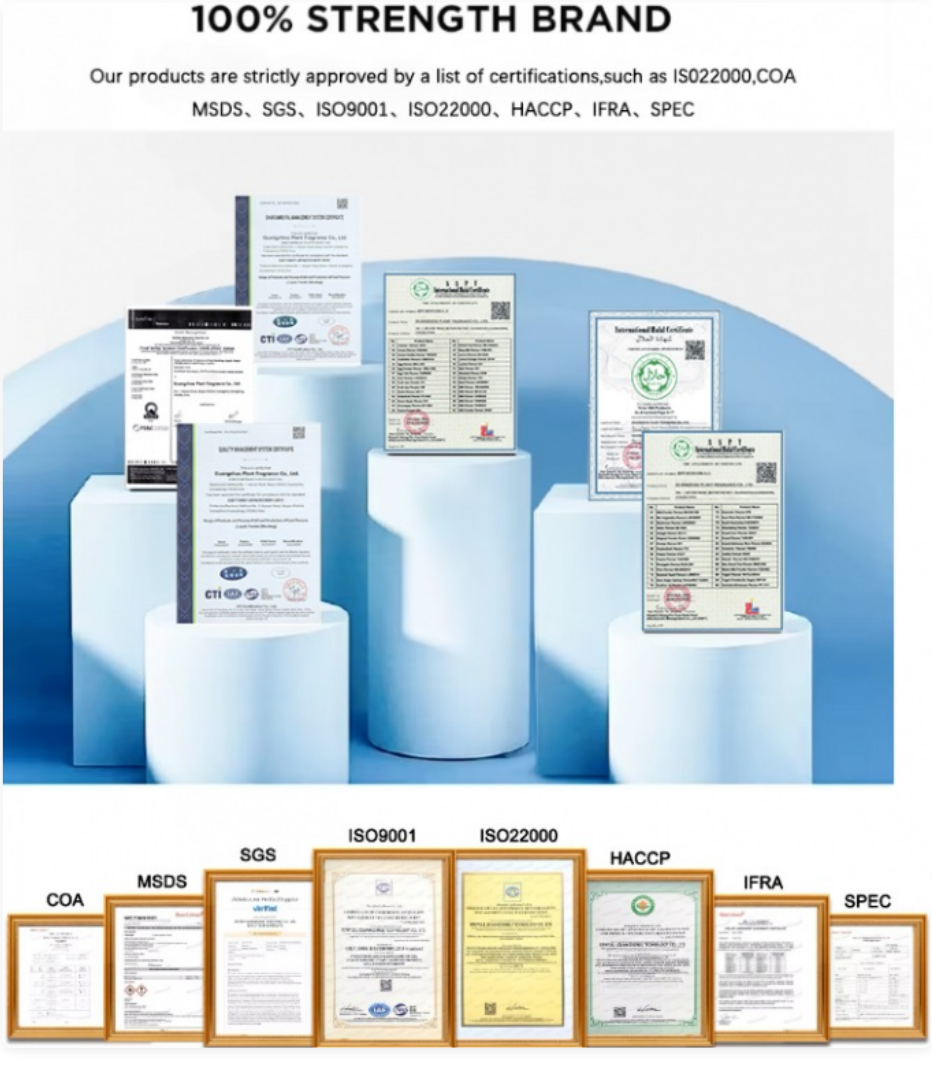

- **Attars and Concentrated Perfume Oils (CPO):** Ideal for alcohol-free, highly potent luxury oils
- **Fine Fragrances:** Used in "Intense" or "Nuit" perfume versions requiring heavy sillage
- **Premium Home Fragrancing:** Top-tier choice for Bakhoor and luxury incense production
- **Hospitality Sector:** Utilized in high-output nebulizers for hotel lobbies and boutiques
- **Personal Care:** Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.
