Product Description

IFRA&MSDS Concentrated Perfume Oil Narciso Rodriguez Fragrance Oil For Perfume Making / Production With Free Sample

Product Code: LDZ-PL12314

Narciso Rodriguez Fragrance Oil is an elegant, sophisticated fragrance characterized by its distinctive musky signature, delicate floral nuances, and warm woody undertones. Its refined composition creates a harmonious balance between sensual softness and understated luxury, making it an appealing choice for modern personal fragrance development. The opening introduces subtle floral freshness with a clean, powdery impression, creating an inviting and graceful first sensation. As the fragrance unfolds, a rich musky heart becomes increasingly prominent, accompanied by delicate rose and jasmine accords that add floral elegance and feminine sophistication. The interaction between these elements produces a smooth, velvety texture that feels intimate rather than overpowering. In the dry-down, warm amber, creamy sandalwood, and soft woody nuances provide depth and a comforting finish, allowing the fragrance to develop a memorable olfactory identity. One of its most distinctive characteristics is the interplay between clean musk and warm sensuality, creating a timeless scent profile that suits both classic and contemporary perfume styles. With its versatile aromatic structure, this concentrated fragrance oil is suitable for developing premium perfumes, signature scent collections, and customized niche-inspired fragrance products.

Fragrance Profile:

Fragrance Notes	Description
Top Notes (Opening)	The fragrance opens with refreshing bergamot and delicate orange blossom, creating a bright yet elegant first impression. Pink pepper introduces a subtle spicy sparkle, adding energy and sophistication while preparing the senses for the floral-musky heart.
Middle Notes (Heart)	The heart reveals a beautiful combination of romantic rose and soft jasmine, enriched by the signature sensuality of musk. The floral accords provide delicate sweetness and feminine elegance, while the musky character creates a smooth, powdery texture that gives the fragrance its distinctive personality.
Base Notes (Foundation)	The dry-down develops into a warm and comforting composition. Amber adds depth and subtle sweetness, while creamy sandalwood and cedarwood introduce refined woody nuances. White musk enhances the softness and leaves a clean, velvety, lingering impression. The overall fragrance is sophisticated, intimate, and timeless.

Technical Specifications:

Parameter	Specification
Fragrance Notes	Narciso Rodriguez Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	0.638–0.995g/cm³ @ 25°C
Refractive Index	1.480–1.523
Flash Point	>80°C
Dosage	Body Mist: 1%–5%; Eau de Parfum (EDP): 15–30%; Soap/wash-off: 1.5-4% Home Fragrance: 6%–10% Body Oils/Lotions: 0.3–1%; Fine Perfume: 15–30%; Shower Gel & Shampoo: 0.2–1.0%;
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water

IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions:

Narciso Rodriguez Fragrance Oil is designed to bring an elegant, sensual, and sophisticated musky-floral character to premium perfume formulations. Its distinctive combination of delicate floral accords, velvety musk, and warm woody undertones creates a refined fragrance experience with lasting aromatic appeal. One of its primary functions is to provide a smooth and recognizable musky foundation that enhances the depth and complexity of perfume compositions. The floral elements, such as rose and jasmine, introduce softness and elegance, while amber and sandalwood contribute warmth and richness. Its balanced fragrance structure allows perfumers to create different scent variations by adjusting floral intensity, powdery softness, and woody warmth. This versatility makes it particularly suitable for developing modern feminine fragrances, understated luxury perfumes, and sophisticated signature scent collections. It also provides an attractive aromatic direction for brands seeking a timeless fragrance identity.

Narciso Rodriguez Fragrance Oil is suitable for manufacturing a wide range of premium personal fragrance products, including eau de parfum, eau de toilette, concentrated perfume oils, perfume sprays, and extrait de parfum. Its elegant musky-floral profile makes it especially appealing for sophisticated everyday perfumes, romantic fragrance collections, and contemporary niche-inspired scents. In alcohol-based perfume formulations, it can serve as a central fragrance composition or blend with complementary ingredients such as vanilla, white musk, iris, patchouli, and amber to create customized aromatic variations. Beyond traditional perfumery, manufacturers can explore its use in scented body mists, perfumed lotions, shower gels, and other coordinated personal care products, subject to application-specific compatibility and safety requirements. For OEM and ODM manufacturers, it offers flexibility in developing customized fragrance collections for different consumer preferences and market positioning.

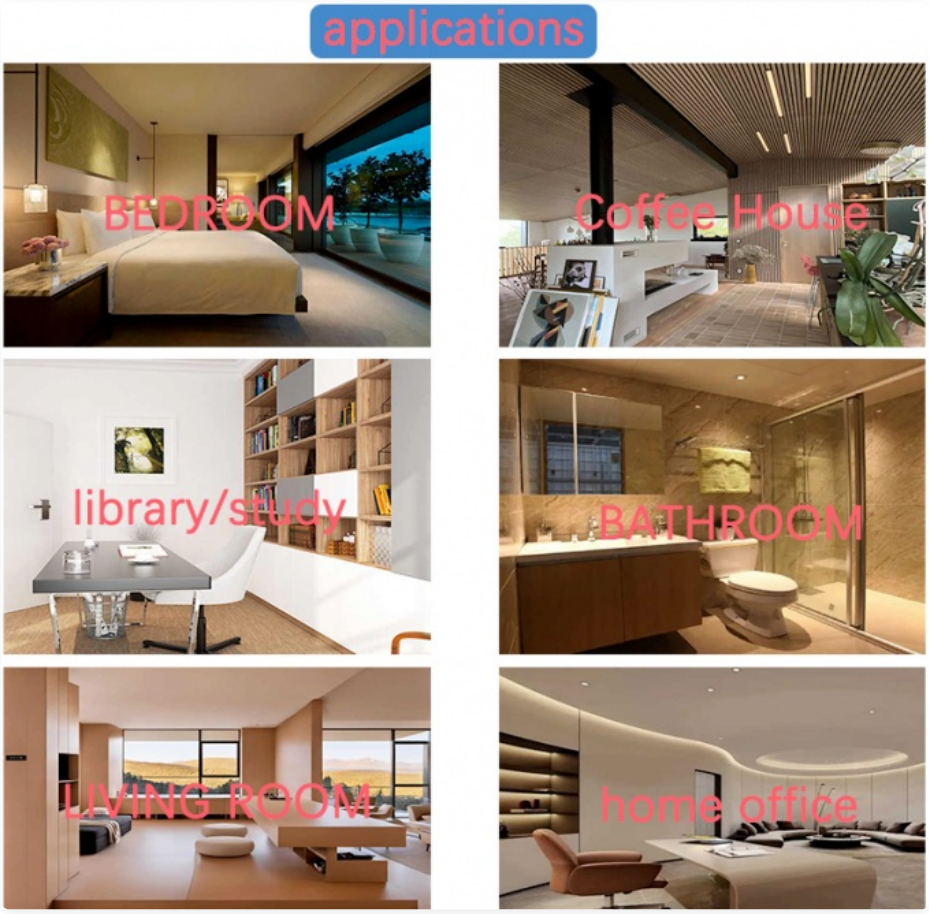

Industrial Applications

Primary applications include:

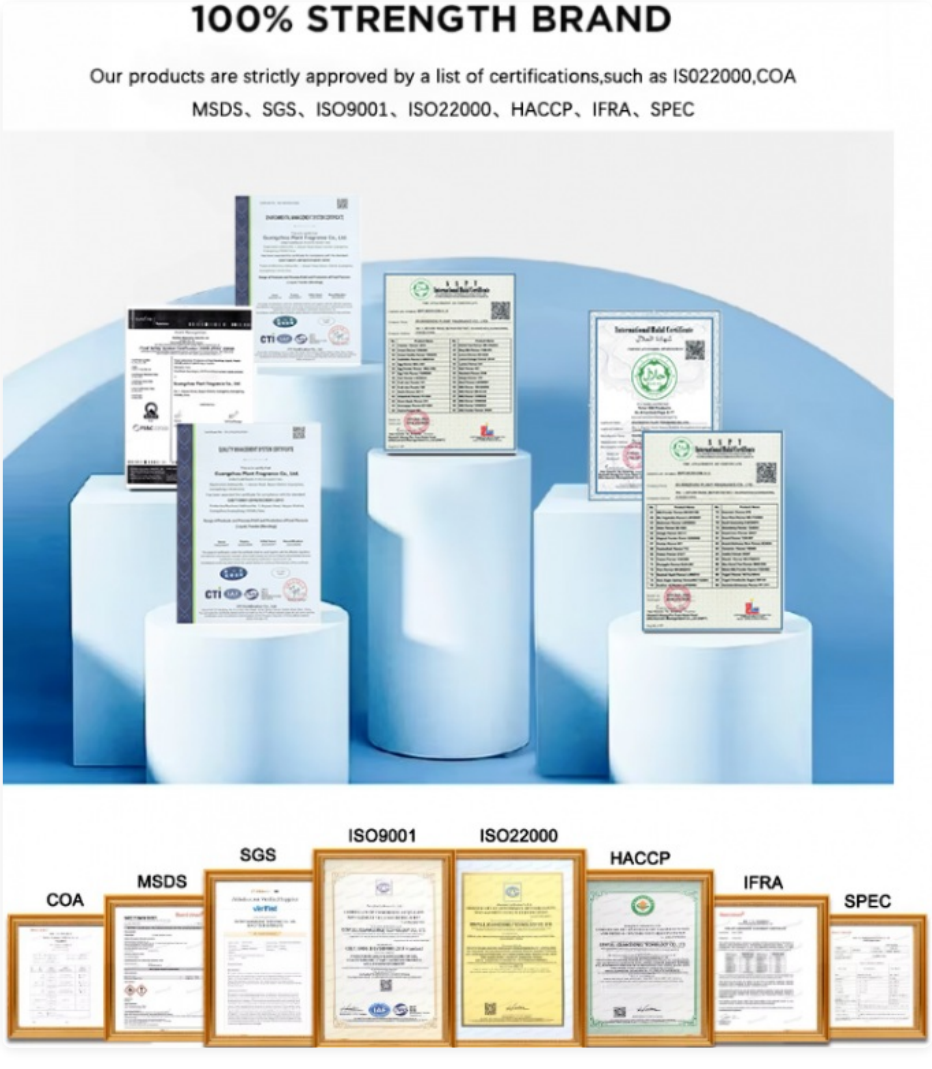

- **Attars and Concentrated Perfume Oils (CPO):** Ideal for alcohol-free, highly potent luxury oils
- **Fine Fragrances:** Used in "Intense" or "Nuit" perfume versions requiring heavy sillage
- **Premium Home Fragrancing:** Top-tier choice for Bakhoor and luxury incense production
- **Hospitality Sector:** Utilized in high-output nebulizers for hotel lobbies and boutiques
- **Personal Care:** Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.
