Product Description

Daily Wear High Concentrated Perfume Oil Britney Spears Midnight Fantasy Fragrance oil For Perfume Making / Production With Free Sample &IFRA Certification

Product Code: LDZ-PL12382

Britney Spears Midnight Fantasy Type Fragrance Oil is a high-impact, oil-soluble perfume compound engineered for commercial fragrance houses, indie perfumers, and cosmetic formulators seeking a distinct twist on the classic Floral Fruity Gourmand profile. Rather than a flat sweet accord, it balances jammy dark fruits against cool, luminous florals and a creamy, resinous backbone—giving formulators room to highlight either its playful twilight facet or a sleeker, modern gourmand edge.

The scent architecture opens with a saturated top note rush of tart framboise, dark black cherry, and ripe plum that reads vibrant right out of the bottle. As the volatile citrus-fruit lift softens, the heart notes reveal a dewy contrast of night-blooming orchid, crisp freesia, and soft iris root, adding airy lift and velvet texture. In the dry-down (base notes), plush vanilla bean, warm amber, and clean musk lock the composition together with strong substantivity and lingering sillage.

Applications & Functions:

This fragrance oil delivers a rich Floral Fruity Gourmand profile featuring juicy berries, dark plum, and cherry up top, velvety orchid, freesia, and iris at the heart, and warm vanilla, amber, and musk in the base. Formulated as a concentrated, oil-soluble perfume compound, it provides strong initial diffusion, balanced mid-wear floral character, and lasting skin substantivity. It blends cleanly into ethanol, fractionated coconut oil (MCT), and dipropylene glycol (DPG), while supporting fragrance maturation during maceration and remaining adaptable to IFRA limits and batch stability testing.

Manufacturers and perfumers use this fragrance oil to formulate Eau de Parfum (EDP), Eau de Toilette (EDT), Extrait de Parfum, and body sprays with a sweet yet luminous evening character. It also suits personal care and cosmetic applications—including body lotions, creams, shower gels, hair mists, and conditioning sprays—where a lingering fruity-gourmand trail adds consumer appeal. Beyond skin and hair products, formulators can incorporate it into scented oils, wax melts, candles, and home ambiance lines requiring warm, sweet depth.

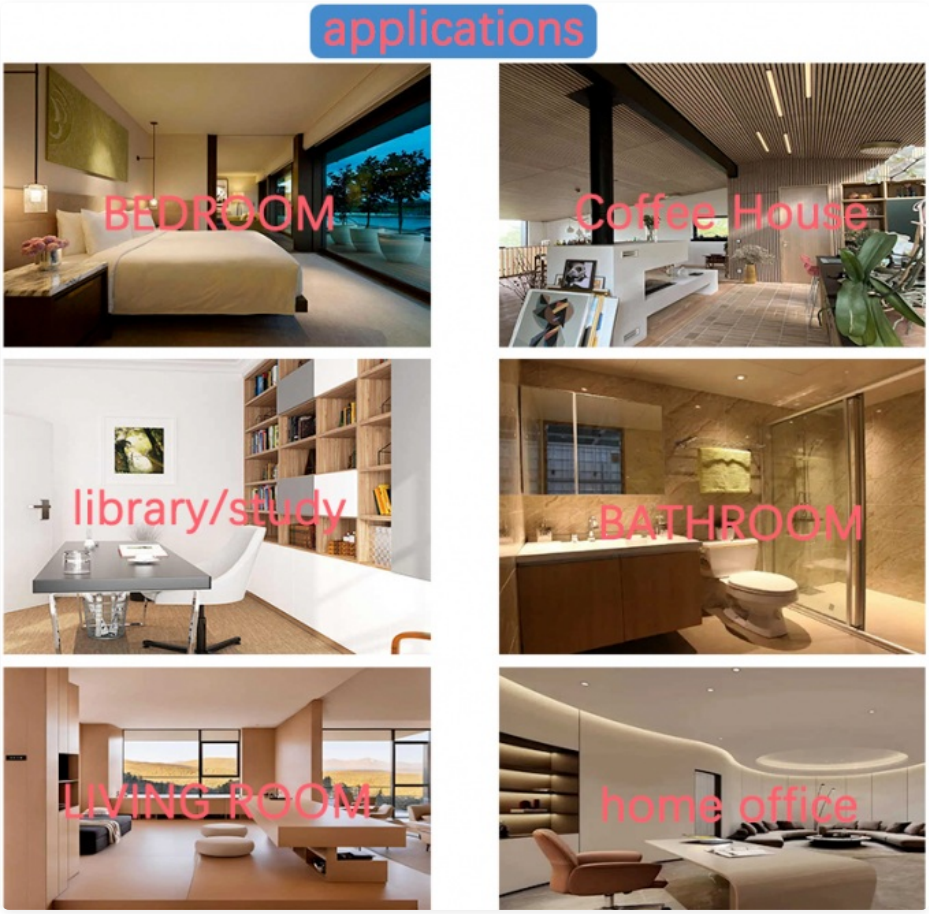

Industrial Applications

Primary applications include:

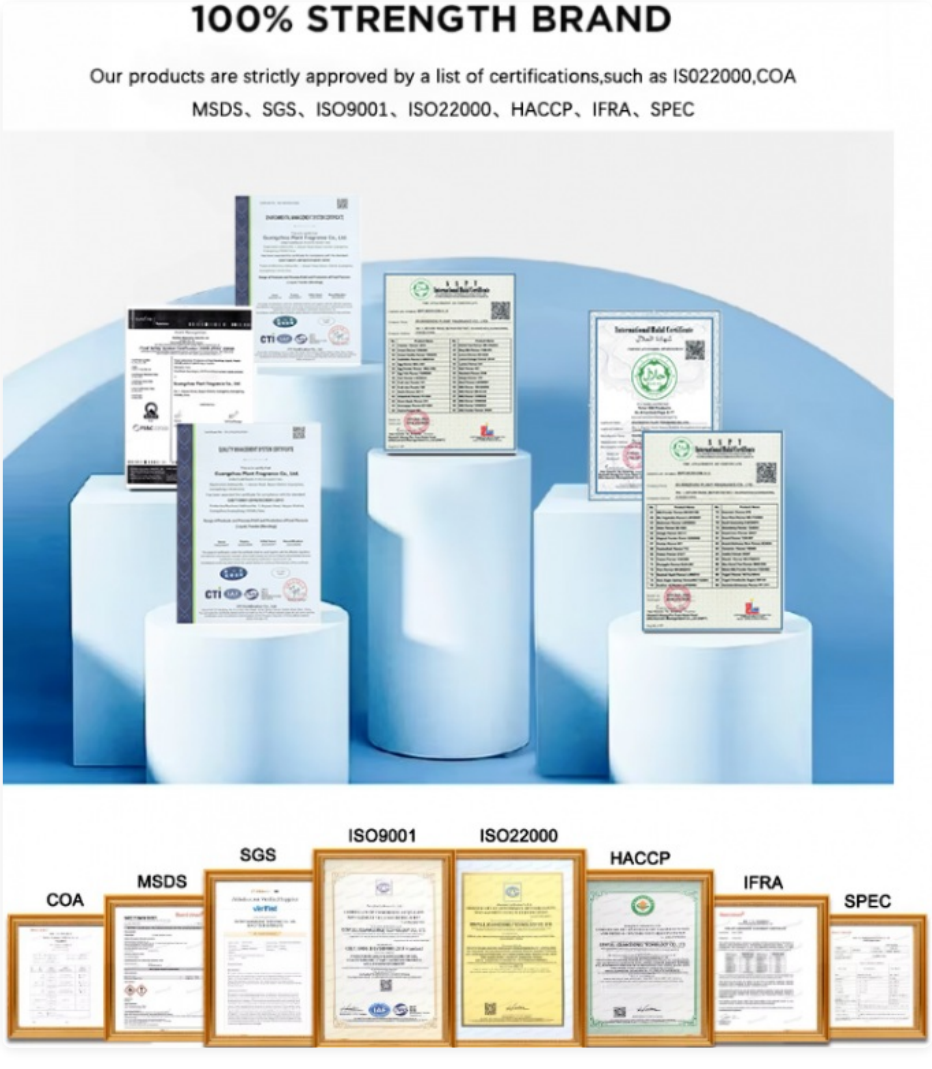

- **Attars and Concentrated Perfume Oils (CPO):** Ideal for alcohol-free, highly potent luxury oils
- **Fine Fragrances:** Used in "Intense" or "Nuit" perfume versions requiring heavy sillage
- **Premium Home Fragrancing:** Top-tier choice for Bakhoor and luxury incense production
- **Hospitality Sector:** Utilized in high-output nebulizers for hotel lobbies and boutiques
- **Personal Care:** Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal
