

5KGS /Plastic bottle Darlie Fragrance Essence Oil For Toothpaste & Food Production &Making With MSDS

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL90031
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms $20.00,To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

- Samples: Freely Provide
- Oem Service: Welcome
- Size: 5kgs/Plastic Bottle
- Ingredient: Contain Herbal Extract
- Odor: With The Aroma Of Peach Scented
- Ingredients: Sodium Fluoride, Glycerin, Sorbitol, Etc.
- Product_Name: Toothpaste And Food Fragrance
- Form: Light Yellow Or Colourless Liquid Oil

Our Product Introduction

Product Description

5KGS /Plastic bottle Darlie Fragrance Essence Oil For Toothpaste & Food Production &Making With MSDS
Product Name: LDZ-PL90031

Product Feature:

Its signature aroma centers on a balanced fusion of natural peppermint and spearmint essences. The peppermint top note provides an immediate, crisp menthol cooling sensation that stimulates the palate and neutralizes unwanted odors. Underneath this brisk opening lies a softer, slightly sweet spearmint heart note that rounds out sharp herbal edges, making the flavor smooth, approachable, and palatable rather than medicinal. Subtle botanical undertones—reminiscent of eucalyptus and clove—add depth and lingering warmth to the finish. Engineered specifically as a concentrated, food-grade liquid flavor, this essence oil offers high heat stability and strong aroma retention. In oral care products like toothpaste and mouthwash, it creates a clean, long-lasting burst of breath-freshening coolness. In food production—such as mint confectionery, chewing gum, baked goods, and chilled beverages—it imparts a bright, refreshing taste without leaving a bitter chemical aftertaste. Its pure, mild, and well-rounded character allows formulators to achieve consistent, authentic mint flavor intensity at low dosage levels.

Functions & Applications:

Darlie Fragrance Essence Oil serves multiple functional roles in industrial formulations. Primarily, it acts as a potent flavoring and aromatizing agent, imparting an authentic, refreshing double-mint profile at low dosage levels. Its high concentration of natural menthol delivers an immediate cooling sensation on mucous membranes by triggering cold-sensitive receptors, creating a clean, invigorating sensory experience. Beyond sensory enhancement, the oil functions as an effective odor-masking agent, neutralizing chalky, bitter, or medicinal base notes from active ingredients such as calcium carbonate, fluoride, or surfactants. Engineered for manufacturing durability, it exhibits strong thermal and chemical stability, preserving aroma integrity during high-temperature processing, mixing, and extended shelf storage without oxidizing or separating. Additionally, its botanical components—including peppermint, spearmint, and subtle clove undertones—provide mild natural anti-microbial and breath-freshening support, helping suppress odor-causing compounds while leaving a smooth, balanced, and lingering finish without harsh chemical aftertastes.

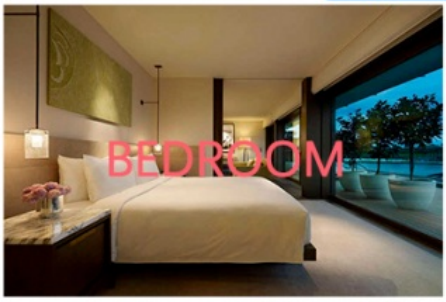

Darlie Fragrance Essence Oil is formulated for versatile cross-industry use in both oral care and food manufacturing. In oral hygiene production, it serves as a core flavoring ingredient for daily toothpastes, whitening gels, liquid mouthwashes, breath sprays, and dental floss coatings, delivering long-lasting breath freshness and consumer-recognized mint appeal. Within the food and beverage sector, its food-grade purity makes it ideal for confectionery items such as hard candies, mints, soft chews, and chewing gum, where sustained flavor release is essential. It is also widely applied in bakery fillings, chocolate centers, ice creams, dairy desserts, and chilled beverages to introduce a crisp, cooling contrast. Furthermore, manufacturers utilize this essence oil in functional lozenges, chewable supplements, and oral-dissolving strips to mask active ingredient bitterness while ensuring a pleasant, palatable taste profile across diverse consumer products.

Our Advantages:

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

Support and Services:

Where there are fragrance, there are plant flavor.
The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customer by improving the quality of their products and shortening their good deliver time. In case of urgent demands of customers, we adopt our contingency measures to help our customers solve the problem in time.

Meantime, we offer Training and Education on fragrance formulation and usage for the customized who interested in our fragrance.

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

We offer:

1.Product usage instructions and guidance;

2. Expert advice on fragrance selection;

3. Technical support for any issues or concerns;

4. Product customization services;

5.Assistance with regulatory compliance.
