Our Product Introduction

## Product Description

IFRA Skin Friendly Fragrance  Liby Master Perfumer Oil For Laundry Detergent / Softener Production/Making With Free Sample

Product Code: LDZ-PL50208

**Product Description:**

Liby Master Perfumer Oil for Laundry Detergent and Softener Production offers a sophisticated, layered floral-fruity fragrance crafted to deliver luxury perfumery aesthetics to everyday fabric care, opening with bright, sparkling top notes of sweet bergamot, crisp green apple, and dewy pear that immediately create an uplifting impression of clean, sun-dried freshness before settling into an elegant, velvety heart bouquet dominated by blooming rose, soft jasmine, and delicate lily of the valley, where the floral core balances sweetness with airy refinement while avoiding heavy or cloying synthetic undertones, and finally resting on a warm, comforting base of white musk, creamy sandalwood, and subtle amber that anchors the composition with remarkable tenacity to cling gently to textiles long after washing and drying; specifically formulated for high-performance laundry applications, this concentrated fragrance oil demonstrates exceptional chemical stability in both alkaline detergent bases and cationic softener emulsions, resisting thermal degradation during warm wash cycles and tumble drying to release bursts of soft, lingering elegance through everyday wear and friction while neutralizing stale or damp fabric odors.

**Product Feature:**

| | |
|---|---|
| Top Notes | Bergamot & Mandarin: Provide a bright, sparkling citrus lift that cuts through soapy surfactant odors the moment the detergent hits the water.<br>Crisp Green Apple & Dewy Pear: Add a juicy, watery sweetness that creates an uplifting sensation of fresh, sun-dried airiness. |
| Heart Notes | Damask Rose & Soft Jasmine: Form a lush, velvety floral bouquet that gives the fragrance its signature luxury perfumery depth without smelling overly heavy or synthetic.<br>Lily of the Valley & Peony: Introduce a clean, translucent green-floral transparency that keeps the heart airy, delicate, and universally appealing on clothing. |
| Base Notes | White Musk: Acts as the primary fixative, binding to cotton and synthetic fibers to deliver a soft, skin-like "clean laundry" warmth that lasts for days.<br>Creamy Sandalwood & Cedarwood: Provide a smooth, woody backbone that prevents the sweet fruit and floral notes from fading too quickly during tumble drying.<br>Subtle Amber: Adds a gentle, comforting warmth at the very end of the dry-down, releasing soft bursts of scent when clothes are worn or folded. |

**Technical Parameter:**

| Key Parameters | |
|---|---|
| Fragrance Type | Liby Master Perfumer Oil For Laundry Detergent |
| Appearance | Clear to Pale Yellow Liquid |
| Odor Profile | Typical sweet orange fruit aroma with bright citrus notes and soft woody finish |
| Flash point | >93°C (200°F) |
| Fragrance lasting time | After multiple washes, the scent lasts for more than 72 hours |
| Specific Gravity | 0.945 - 1.046 g/mL |
| Refractive Index | 1.440 - 1.540 (20°C) |
| Product Range | Air Fresheners, Diffusers, Scented Candles, Room Sprays |
| Solubility | Easily soluble in ethanol, propylene glycol, surfactant system, and miscible with water |
| Recommended Usage Rate | Laundry detergent: 0.1% - 0.5% (w/w); Fabric softener: 0.05% - 0.3% (w/w) |
| Storage conditions | Store in a cool, dry, dark place, away from high temperature |
| Shelf time | 24 Months from Manufacture (Properly Stored) |
| Stability | Good stability at high temperature (50°C, 30 days) and pH (3-10) conditions |
| Safety | Complies with IFRA International Fragrance Association standards, non-irritating |

| | |
|---|---|
| Fragrance duration | After multiple washes, the scent lasts for more than 72 hours |

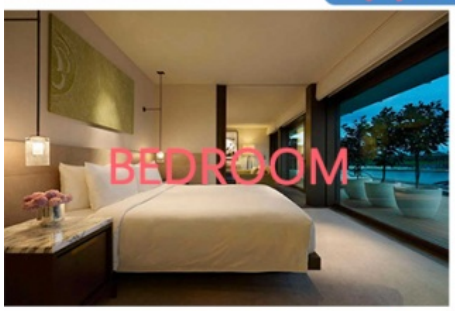

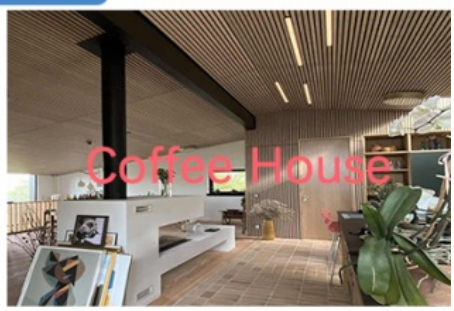

**FUNCTIONS & APPLICATIONS:**

| | |
|---|---|
| Long-Lasting Scent Retention | Formulated with high-substantivity molecules and heavy base fixatives (such as white musk and sandalwood) that bind effectively to both natural cotton and synthetic polyester fibers, ensuring clothes smell fresh for days after washing and storage. |
| Malodor Neutralization | Actively masks and counteracts unpleasant odors—including sweat, musty dampness, cooking grease, and the harsh chemical smell of raw surfactants—rather than merely covering them up. |
| Chemical & Thermal Stability | Engineered to remain stable across extreme pH environments, resisting breakdown in high-alkaline laundry detergents as well as acidic or cationic fabric softener emulsions, while withstanding warm wash cycles and tumble-dryer heat. |
| Consumer Sensory Enhancement | Elevates everyday laundry products with a layered, fine-fragrance profile that mimics luxury perfume, driving stronger consumer preference and brand perception. |

| | |
|---|---|
| Liquid & Powder Laundry Detergents | Used in standard, concentrated, and front-loading/top-loading detergents to impart a clean, uplifting scent during the wash cycle. |
| Fabric Softeners & Conditioners | Added to rinse-cycle softeners where cationic surfactants help deposit the fragrance onto textile fibers for maximum dry-fabric longevity. |
| Laundry Pods & Gel Beads | Ideal for single-dose liquid capsules and in-wash scent booster beads, offering high fragrance load capacity without compromising film or bead integrity. |
| Specialty Fabric Care | Applied in delicate hand-wash liquids, linen sprays, ironing waters, and dryer sheets to provide an instant refresh to clothing, bedding, and household textiles. |

## applications

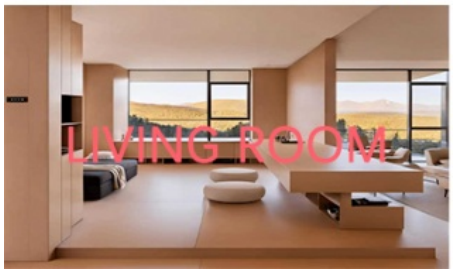

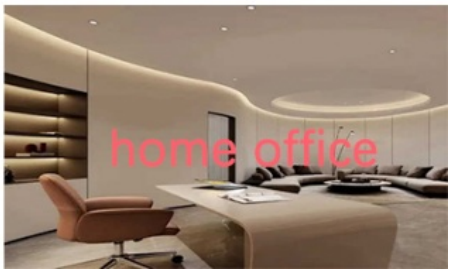

**Our Advantages:**

**Support and Services:**

We defenitily have the fragrance essense oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients. The company has always been closed to assist customers to improve the aroma of products and structure of the quality and reduce production costs, tailored to customers, to meet the aroma needs of different daily necessities, we are one of the best enterprises of cost and services in the industry.

**Fragrance Oil for perfume making, We Support OEM Your Own Scent Or Other Classical flavor. Contact Us For Inquiry NOW.**

Where there are fragrance, there are plant flavor.
The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customer by improving the quality of their products and shortening their good deliver time. In case of urgent demands of customers, we adopt our contingency measures to help our customers solve the problem in time.

Meantime, we offer Training and Education on fragrance formulation and usage for the customized who interested in our fragrance.

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

We offer:

1.Product usage instructions and guidance;

2. Expert advice on fragrance selection;

3. Technical support for any issues or concerns;

4. Product customization services;

5.Assistance with regulatory compliance.

**Packing and Shipping:**

**Product Packaging:**

| Pack Type | QTY | Specification | Volume |
|---|---|---|---|
| Plastic Bottle | 5kgs | L41*W28*H33.5cm<br>5kg*4 bottle per carton | 0.038cbm |
| Metal Barrel | 25kgs | D30*H45cm | 0.032cbm |
| Jerry Can | 20-25kgs | L29.5*D29.5*H41cm | 0.33cbm |

**Shipping:**

After the payment, we'll arrange the production of your order ASAP. Normally,  It will take 3-5days for trial order with small quantity, around 5-10 days for bulk order. Before shipping out, we'll take photos of the goods for confirmations with clients, or supply bulk sample for confirmation as well.

We offer shipping goods by ship, by air ,by truck , and by express, according to the clients requirements.
